

# MLA Seeks More Cash For Hospital

Penticton's new hospital will be thrown into the lap of the provincial government on Tuesday of next week unless the government moves to remedy a situation which, if allowed to continue, will result in an operating deficit at the end of the year of about \$34,000.

FRANK RICHTER, MLA  
... To Victoria

The Penticton hospital board, more than five weeks ago, informed the minister of health and welfare of its intention to resign on September 15, unless the department acts to remedy the trouble, asserted by the hospital board to be created by the too low per diem rate which, while reasonably adequate for the old hospital, is not sufficient to meet costs of operating the new.

Apart from acknowledgment of the letter, stating the board's intention of resigning, no word has been received from Victoria.

Hopes of speedy action have, however, been raised this week with the announced intention of Frank Richter, MLA for the Similkameen, to take the matter up with the authorities in Victoria immediately upon his arrival there this weekend to attend the fall session of the legislature.

Mr. Richter, who won the Similkameen for Social Credit in the June election, informed The Herald that he had made a study of the hospital situation and believes the board is right in its contention that the per diem rate is too low for the hospital which was designed to provide better facilities for care of patients than existed in the old hospital. "It doesn't seem possible to increase facilities for care of patients and not increase costs," Mr. Richter contends.

"It is my intention to take up this matter on behalf of the hospital immediately upon arriving in Victoria. This is a matter which concerns not only Penticton but the surrounding district."

## Pair Committed For Trial Out On Heavy Bail

Fred H. Arncliffe, of Alberta, and James L. Murray, of Kelowna, have been released on \$7,000 and \$5,000 bail respectively following a preliminary hearing on charges of alleged false pretenses.

The case revolves around alleged misrepresentation of the assets of Spruce Mills Ltd., of Nanaimo, B.C., whereby the two men obtained \$5,000 from Charles E. Oliver, of this city. The hearing was held here last Thursday and Friday with A. D. C. Washington appearing for the Crown. John S. Atkins appeared for Arncliffe but defense was reserved. Murray was not represented. Both men were committed for trial by higher court.

## Property Still Privately Owned

# Hole In Lawn Upsets Council

Complaint of J. L. "Red" Bowering that city workmen had dug a sizeable hole in his lawn on Westminster avenue without his prior knowledge or consent, revealed a situation that had City Council in something of an uproar last night.

Acting Mayor Wilson Hunt took a very dim view of this action by city employees and the city engineer was summoned from his blueprints at the city hall to explain the whys and wherefores.

City Engineer Paul G. W. Walker was caught completely by surprise. He understood that the property being encroached upon by city workmen in re-laying the water main in anticipation of the widening of Westminster avenue had been acquired by the provincial government.

This is not so, options have been taken on the properties but as yet they have not been taken up, council was informed.

Alarmed at this disclosure council requested Acting Mayor Wilson Hunt and Alderman J. G. Harris to approach the authorities at Victoria with a request for speedy action.

Profuse apologies were tendered Mr. Bowering and the city engineer was instructed to secure written consent of property owners before encroaching on land which, although under option, remains until the options are taken up, privately owned.

"A very unfortunate misunderstanding," commented Acting Mayor Hunt, shaking his head.

**THE THREE CHILDREN** of Mr. and Mrs. John E. Thomas of Okanagan Falls stand beside the prize animals that brought triple honors to the family at the Southern Interior Stockmen's sale and show at the Falls last Wednesday. On the left is Charlie Thomas, 13-year-old junior farmer, with his 18-month-old Hereford steer which took the Grand Champion award of the show. The 1050 pound

animal was purchased by Burns and Company for \$260.93. Charlie also won the Penticton Herald Cup for the best calf in the boys' and girls' division. Centre picture shows Shirley Thomas, age nine, with her Reserve Grand Champion winner, a 16-month-old Hereford calf that tipped the scales at 890 pounds. Swift Canadian company bid top price of the show, \$25 per hundred, for

this animal. At right is another Thomas youngster, Joan, who won first prize in the open singles event for her 815 pound calf entry. The Thomas youngsters come from a long line of successful ranchers. This was the third year of competition for son Charlie who won the open singles and second place in the calf event his first year in the judging ring.

## Merchants Up In Arms

# Trade Licenses Create Storm

City business houses are up in arms against additional trade license fees imposed by the city following re-check by the trade license inspector.

Many merchants were found to have added to their lines and in accordance with the bylaw the trades license inspector sent out additional billing last week.

The retail merchants bureau of the Penticton Board of Trade met last night to discuss the new impositions with S. H. Cornock, trades license inspector, and the upshot of the discussion was the decision to carry the matter to the Board of Trade which, in turn, is expected to take up the whole question of trade licenses with the City Council.

Simultaneously, City Council was also considering the problem last night and the general feeling of council is that something must be done. Commented Alderman E. A. Titchmarsh, "the whole system of trade licenses is obsolete."

Acting Mayor Wilson Hunt declared the problem to be a matter of interpretation of the bylaw and contended that apart from administration the city council had a responsibility to protect the city's merchants. He urged an early meeting with the license inspector to thresh out the problem.

Alderman W. D. Haddleton said that the bylaw was designed to protect the merchant and, he contended, some merchant may decide to add to his line "quite a furor" on the man next door who is dealing alone, exclusively in the one article. He pays a trade license on that article and so should the other merchant.

Mr. Cornock, straight from his meeting with the retail merchants, "mostly grocers," admitted that the additional billings had evoked "quite a furor." He admitted there was a problem and perhaps the bylaw was at fault.

A full dress debate is to be held next week when it is hoped an equitable solution will be found.

Two applications for rebate on trade licenses were considered by council. The Hobby House ask-

## Fifteen Still Out

# Mill Workers Return To Jobs

Penticton Sawmills Limited resumed partial operation yesterday morning as the majority of the striking workers returned to their jobs.

According to a report this morning from William Fairley, secretary for the company, close to 50 of the workers are back at their jobs at their own request, while about 15 have not yet returned.

The sawmills closed down last Wednesday when the employees left their jobs over a jurisdictional dispute between the International Woodworkers of America, CIO-CCL, and the Lumber and Sawmill Workers of the AF of L Carpenters and Joiners over who has the right of bargaining authority.

IWA workers left their jobs on Tuesday of last week, AF of L employees refused to cross the picket line and the company refused to cross the picket

## Hail "Big As Eggs" Hammers Holes In Cottage Roofs At Glen Lake

Hail that fell recently in the Glen Lake area, west of Peachland, has been described by "Frenchy" Forest, who operates a boat rental depot there, as the worst he remembers in his lifetime. The hail was as big as eggs, bounced ten feet from a roadbed, churned the lake into a foam, and would have been dangerous to life for anyone out in it. Mel Ashley, owner of a cabin at the lake, reports that he has had to reroof it, which is also true of the Taylor cabin. Another aftermath of the brief though vicious storm is the toll taken of young grouse, which usually abound there.

## First Fall Meeting Of Board Of Trade Called For Thursday

First fall meeting of the Penticton Board of Trade will be held Thursday night in the Hotel Prince Charles, starting at 6:30 p.m. A heavy agenda is expected in view of the long summer recess. Major topic to be discussed will be the recent additional billings under the trades licensing bylaw which have aroused considerable feeling in city business circles.

## TO START WORK ON BANDSHELL ADDITION SOON

Work is scheduled to commence within the next few days on a substantial addition to the Gyro Park Bandshell which will see the completion of the unit as laid out in the plans when the shell was erected a few years ago.

The Parks Board has allocated monies totalling \$3,000 for the construction of a band room adjoining the rear of the shell and it is expected the work will be completed by early winter. This work has been included in the preliminary estimates of the Parks Board for the past five years, but each time was cut from the budget as spiralling construction costs pushed the project out of reach.

The Parks Board decided to compromise and voted \$500 for stuccoing the exterior. The Penticton Band looked upon this as the end to its hopes for badly needed accommodation, and petitioned the board with a counter proposal. The band suggested building the addition by volunteer labor from its own ranks with the financial assistance of the board.

The Parks Board reconsidered, approved of the idea put forward by the band and added another \$2,500 to the original \$500 from the contingency fund.

Construction will be under the watchful eye of bandsman Harold Montague and a great majority of the work will be done by fellow bandmen in their spare time. A full time carpenter will be employed on the project to handle the more technical work.

## Council Meets With Power Company Officials

# Short Power Outages To Be Expected

In the event of trouble West Kootenay Power and Light Company lines can be hooked up with those of the B.C. Power Commission in the north in a matter of 20 minutes, once the northern power plant has been alerted. Delay springs from the fact that it is necessary for the West Kootenay Power and Light Company employees to ascertain the nature and extent of the trouble to judge if a hook-up is necessary before calling for help.

It was thus that J. D. McMynn, assistant to the general manager, explained the time lapse in switching to an alternative source of power if and when a serious outage occurs on lines serving the city.

Mr. McMynn, along with N. S. Trouth, superintendent of the Okanagan and Similkameen sections of the big company's operations, met with the City Council's light and power committee last week to discuss council's complaints of prolonged outages.

The report of the meeting, as submitted by City Clerk H. G. Andrew to council last night, follows:

Mr. McMynn advised the meeting that the recent outage of long duration was due to a human factor and not likely to occur again. He further stated that it was hard to guarantee against outages of 15 to 30 minutes duration. Answering a query as to how long it takes to hook up with the north, Mr. McMynn advised the outage had to be first analysed, and the length of time to clear the lines known before any north connection is considered, as it may not be worthwhile making the switch-over. Mr. Trouth, in outlining the technique of locating outages, stated that an operator could reach their substations in a matter of minutes. Then, sectionalization is carried out until the problem is discovered. It is not their wish to alert another company unnecessarily. Consequently, this is not done until the trouble spot is analysed and the length of time to correct the outage known. (Continued on Page 8)

## OUTSTANDING SPEAKERS FOR CANADIAN CLUB

Penticton Canadian Club members will hear at least four outstanding speakers this year. Plans for the forthcoming season were made by the executive of the organization which met last Tuesday in the Hotel Prince Charles.

The first speaker of the year will be Donald Grant, a professional lecturer on international affairs, who will address the Canadian Club on September 23. Mr. Grant is highly recommended as an outstanding lecturer.

On October 23 Calgarian Grant MacEwan will address the local club on the topic "Eyes North". Lady Fletcher is the speaker scheduled for January 15 and J. Alex Edmiston, assistant to the principal of Queen's University, will be guest speaker at the February 25 meeting. His topic will be "The Eternal Problem of Crime and Criminals." Further particulars on these speakers will be released at a later date.

The four above mentioned speakers have been arranged for through the Association of Canadian Clubs, Ottawa. Other speakers will be arranged for by the Regional Council of Canadian Clubs in British Columbia.

Anyone wishing to join the local Canadian Club this season may secure membership application forms from any member of the executive. The executive comprises Miss Joan Appleton, president; Dr. R. K. Gordon, Mrs. L. V. Newton, Miss P. Gwyer, Miss Grace d'Aoust, R. B. Cox, R. F. Raikes, E. Smith, H. D. Pritchard and E. R. Butler, the latter of West Summerland.

Traffic regulation amendment bylaw was given final reading by City Council last night.

# Local Growers Hear How They Raise Apples In England

Okanagan growers heard how they grow apples — good apples — in Great Britain at the Hotel Prince Charles last Friday night and went home with much food for thought.

The speaker at the Penticton PCTGA special meeting was John Roberts, chairman of the National Fruit Union of England and a fruit grower of some note both in England and South Africa.

Mr. Roberts delivered a short but interesting address on how they do it in England, showed some excellent colored films illustrating his points and then withstood, with skill and humor, an hour-and-a-half long barrage of questions which ran the gamut from concentrate spraying, pruning and planting methods to the marketing of fruit by auction.

## COMPARED METHODS

Comparing the fruit growing, harvesting and marketing methods utilized with success in England with those of the Okanagan, Mr. Roberts emphasized that he felt it would be impossible to institute some of these methods under the conditions which exist in this Valley, but some of his ideas captured the interest of the Okanagan growers and they questioned him extensively.

Of particular interest, it appeared, was his growing system. A scientific farmer in every sense of the word, Mr. Roberts explained with enthusiasm that all his orchard land is seeded with wild white clover, right up to the tree trunks and throughout the growing season, this clover is cut with a gang mower every time it comes about four inches high and

the clippings are dropped and allowed to go back into the soil.

Explaining that this method had been adopted only after extensive experiments, he pointed out that not only did it eliminate the spraying for trace element deficiencies, but it also formed a protective layer for the roots against the elements.

Turning to the differences in pruning, Mr. Roberts said, "We don't go in for spur pruning." Stating that he felt the best apples grow on wood no older than five years, he explained that he pruned to gradually replace the whole tree. With this method, he elaborated, his trees were divided into three parts — one third new wood, one-third making next year's bud and one-third producing apples.

Further on pruning, Mr. Roberts said that "we like to have the apples on the outside, facilitating picking and better coloring and prune with this in mind."

**BIGGEST HEADACHE**  
"Spraying is our biggest headache," he went on. "We have been spraying once every ten days — if we sprayed every three weeks we would not be able to pack a large part of our fruit because of scab," he said.

During his discourse on spraying, Mr. Roberts said that he used a machine which sprayed five gallons to the acre, but he displayed an unwillingness to further describe his wonder machine. He admitted later in the evening that the machine is the product of much scientific experimenta-

tion and that he is hoping to get it patented.

One of the growers in the audience remarked that he would exchange the "Giraffe," in which he exhibited a keen interest, for the spraying machine.

Turning to packing and storage methods, he revealed that he had his own packing shed and gas storage plant on his estate and described the methods. He admitted a labor problem and said that it is met by devising labor saving methods and machinery. Explaining out that the British orchardist grows, packs, stores and markets his own produce, Mr. Roberts emphasized the necessity of building up goodwill through continuity of a good pack.

## WORK OF CNIB OUTLINED TO KIWANIS CLUB

Kiwanians were given an insight into the fascinating alphabet used by the blind—braille—and some of the problems facing those without sight when J. C. Hembling, of Penticton, spoke to the regular Tuesday noon lunch meeting.

Mr. Hembling, field representative of the Canadian National Institute for the Blind, said the blind are often forgotten by those more fortunate and urged the Kiwanians to be alert to those who had lost their most precious possession. The blind do not want pity; it is understanding they seek, he said.

Since 1945 Mr. Hembling has only had guiding vision and although he is able to move freely about, he remarked that he has not developed the sensitive powers that the totally blind often achieve. In many instances it is found that no sight at all would be easier for the individual who has only guiding vision.

The public seems to be under the impression that all blind people read either "moon type" or the better known braille, but this is not so, said the speaker. Blind people in the higher age groups do not necessarily learn the system of communication although some exceptional students have mastered braille at 75 years and more.

## MANY BRAILLE BOOKS

When a blind person registers with CNIB he is given the opportunity of using a vast library written in braille that is as complete and up-to-date as one could wish. There is a ton of the bulky books in the malls every day, added Mr. Hembling, who was once a school teacher. In addition to the braille library there is an ever-increasing number of books being recorded.

Speaking from personal experience, Mr. Hembling pointed out that it is not unusual for blind people to try and hide their handicap from others. Through the patient efforts of the CNIB these people are shown that they can still carry on happy and useful lives. It is often the case that people with normal vision do not give credit to the capabilities of the blind who have taken the misfortune of their handicap in stride and have gone on to develop a full and remarkably active life.

## Naramata Cricket Eleven Wins Over Trail On Sunday

Naramata cricketers returned from the Kootenays yesterday with another victory to their credit. They defeated the Trail eleven 66-50 in an exhibition match in the Smelter City on Sunday.

Naramata batted first in the low scoring contest and Trail appeared to have the game well in hand but they fell apart in the final innings, losing the last seven wickets for four runs.

Naramata's Anson Day was top bowler with four wickets for one run, while Bob Conway had four for 11.

Trail's Bowen topped the batters with 21 runs, while Vernon's George Lang, one of the four Vernon cricketers to play for the Naramata side, scored 12. Another Vernon player, Vic Laban, scored 15 and Ian McKay 10, including the only boundary in the Naramata innings. Veteran Gordon Pearson also played a very steady game for the winners.

## Cerebral Palsy Tag Day To Be Held Saturday

The Penticton branch of the Pythian Cerebral Palsy Committee, will hold a tag day here this Saturday.

On the tags will be the words, "I helped the Pythians help the cerebral palsy child". The proceeds of the tag day will go to the clinics which treat these unfortunate children and to help the parents get the afflicted children to the nearest clinic for treatment.

The cerebral palsy aid program started seven years ago in B.C. and until 1951 was carried on by the B.C. Cerebral Palsy clinic in Vancouver.

During the past two years, through the aid of the Pythian Cerebral Palsy Committee and other community minded organizations, men's service clubs and women's organizations, this small beginning has developed into a large, organized effort.

The growth of the cerebral palsy aid organization has been likened to the growth of a great oak tree from a tiny acorn. Fifty-eight Pythian lodges and temples are part of the many limbs of the oak and the trunk is the recently organized Cerebral Palsy Society of B.C., an association of all clinics giving treatment to cerebral palsy children.

## Cawston Fall Fair Thursday

CAWSTON — This community is getting ready for the Fall Fair which will be held tomorrow in the Cawston Community Hall. All entries are to be in the exhibition by 10 a.m. and doors will be open to the public at 2 p.m.

This year a very large entry is anticipated in fruits and vegetables, flowers and fancy work. Other departments are home cooking and household arts and a large junior section.

The fair is sponsored by the Cawston Women's Institute and the Cawston Board of Trade, with Miss Elizabeth Dunnett as convener.

THE GREEKS

## HAVE A WORD FOR IT

... We mean the magic word that tells a mule to get going. It probably worked better than usual, recently, when Greek mule-drivers had to transport into the isolated interior, roofing materials needed for the construction of refugee shelters. The government purchased 2,000 tons of aluminum for the purpose, and incidentally licked the transportation problem.

Another nice thing about aluminum's lightness is that a given poundage goes two to three times as far as with other metals. It often means that aluminum, with all its advantages, actually costs less, too. Aluminum Company of Canada, Ltd. (Alcan).

## Are YOU One of these People?

Nervous, upset Can't rest Run-down

## RESULTS IN 6 WEEKS OR \$10.00

You May Not Know How Well You Can Feel until you make up your mind to look after yourself right now. If you think your trouble is organic, then see your Doctor for a check up at once.

IF IT IS "NERVES", or you are doing a job which makes heavy demands on your Nervous energy, then go after your trouble with the medicine you know has proved it can help you—Dr. Chase's Nerve Food.

WHY? Because this well-known product is specially effective for people with "Nervous" troubles. It will help you to retain your vigor and high spirits. It will help to improve your energy and good health so you can do your work with enthusiasm.

## NOT A SEDATIVE

Dr. Chase's Nerve Food is not just a sedative to quieten your nerves for one night's sleep, but which might leave you feeling still more nervous and restless the next day.

INSTEAD, Dr. Chase's Nerve Food, containing Vitamin B1, Iron and other essential minerals, is a time-tested formula which helps to bring not only quick relief, but a constructive building up of your body and nervous system, your general health and vitality—which should help you to sleep better, feel better, look better. START TODAY to take Dr. Chase's Nerve Food on the 6-week PLAN.

RESULTS IN 6 WEEKS OR \$10.00

To encourage you to carry through the 6-week Plan and thus enjoy the maximum benefits, we make this offer:

You must be delighted with how well you feel after taking 6 small (\$4.74) or 2 large boxes (\$3.96) of Dr. Chase's Nerve Food. If NOT, return 6 directions sheets from small boxes, or 2 top carton flaps from large boxes, and you will receive \$10.00 from the Dr. A. W. Chase Medicine Co., Oakville, Ont.—over twice cost of the Nerve Food. 53-17

# Penticton Herald Editorials

## The Hospital Deadlock

The whole Penticton district must join with the Herald in stressing the hope that before another week is over the deadlocked situation existing between the local hospital board and the BCHS will somehow have been altered. As it is now, the board has offered to resign if, before September 15, the authorities do not consent to a somewhat greater per diem allowance so far as to avert a deficit.

For this to happen would be deplorable. Without entering into the rights or wrongs of whatever lies behind the scenes, the public will judge only the final outcome. And if that outcome is a hospital without a board, and a chaotic fumbling around in the resumption of administration, it will be a rebuke to everyone concerned.

Victoria may feel that it has good grounds for calling what it may feel is a bluff by the local authorities. But if this is so, it would go down a very great deal better with the public if those same authorities showed a more constructive and helpful attitude in getting on to the scene here and demonstrating how and where costs may be adjusted and fitted into the pattern imposed. Then, if advice were not accepted, stringent

action from above could be justified. It is our understanding, however, that in the current dilemma there has been no enquiring visit of any sort by any representative from Victoria, though the board, this year, has twice made the trip to the capital to try to work out its solution. Rumor persists that some worthy, from some source, has offered the suggestion that cold meals only be served throughout the year to the patients, so as to balance a budget. But the rumor only illustrates the perplexity and growing indignation of people of the city and district. They really only want to hear that the argument is over and done with.

One ray of hope in the situation seems to centre on Frank Richter, member for the constituency, who has openly stressed that he sympathizes with the local board's problems and intends to try to work out, with Victoria, a solution satisfactory to the board. This, of course, is no more than his duty in the situation, yet it will certainly be to Mr. Richter's credit if he can achieve this. And we trust, in that he is leaving for the capital, that he will have some good news affecting the problem before the board's deadline arrives.

## Highway Policy

The Vancouver Sun's recent campaign to create a highway commission, "taking road building out of politics", is founded on the suggestion that work done in the hinterland is just so much waste. The Sun believes that a commission would divert funds and relieve congestion in the lower mainland. But "politics and politicians" are in the way.

The congestion problem close to Vancouver is a weighty one, we recognize. But that the growth of travel and commerce throughout the province is to be dismissed as a sort of secondary issue is intolerable. Only a comparatively few years ago British Columbia meant little else than its extreme south-west acreage, centering in Vancouver. Economically speaking, it was one of the continent's bad jokes. But today that situation is changing. It has cost a good deal of time and money to make a network of half-decent roads in B.C., for the terrain has been awkward. Yet the result is an

accelerating life throughout the wider area, with strengthened business sinews, and the productive expansion on which Vancouver itself depends.

If it is "politics" that has brought this program about, then we need more rather than less of it.

To appropriate all the necessary funds to solve all current highway problems quickly is impossible for a B.C. government, or any commission. Meanwhile a balance has to be struck, and it is our emphatic suggestion that congestion on roads leading to and from Vancouver, bad as it is, takes no precedence over the continuing need of developing the province as a province.

Instead of taking road building out of politics, we suggest that the Sun, "Vancouver's only home-owned newspaper", should take its editorial pundits out of the home town and force them to look at the expanding possibilities of this new empire of British Columbia.

## Red Shield Appeal

No one knows better than the Salvation Army officer who toils among the people at all hours of the day and night how true is the saying that "one half of the world does not know how the other half lives." They know intimately the short and simple annals of the poor.

But misfortune is not a monopoly of the poor, say today's Salvationists. Increasingly, those who live above the poverty line are having their troubles. They need sympathetic counsel and assistance, administered by specialists in welfare work who are well qualified to give it.

For The Salvation Army this consciousness of need is not merely the result of gazing upon misery whenever it occurs. It is possible to do that and only become callous. Actually it is the result

of a deep-seated desire to bring into action the best qualities of mind and heart so that distress might be alleviated and evil conditions corrected.

The Salvation Army is richer today in accumulated experience and more efficient in its operations because of its strict adherence to the lines that have proven successful through decades of welfare work. Indeed it may be stated that the whole structure of The Salvation Army is based on the soundest foundation—principles—love to God and love to man!

That is sufficient recommendation for support in the current Red Shield Appeal which will ensure The Army having sufficient funds to carry on its beneficial activities.

## Watch Out

You've probably seen that shiny little apple in the roadway, and the spilled school books, and the skid marks of a motor car.

It's a picture that has been featured recently by a large corporation, in a highly effective piece of advertising.

The theme is a timely one. Be careful in your driving habits, now that school has started again.

One picture is worth a thousand words. This one is simple yet dramatic, emotionally arresting, and memorable.

## Rhyme And Reason

From the point of view of cost alone, notices in parks and beauty-spots have to be terse and to the point. But this terseness, by cutting out the small words of courtesy such as "please", turns them sometimes into brusque orders which produce a certain reader resistance. If that resistance is strong enough, the object of the notice is defeated.

A small town offers an idea which might be of interest to parks authorities and to those concerned with the National Beautification Campaign. This town had a piece of land which it decided to make into a park. The land was small, oblong in shape, uneven and with a river wriggling its way through the middle of it. However, bushes placed strategically to cut off the view of nearby buildings gave it an apparent remoteness and landscaping with rockeries and terraces, a couple of rustic bridges and some seats, made it a delightful place to while away an idle half-hour.

The main problem was to get people to keep the place neat and tidy. For this purpose, the town council hired a local scribe, a "mute, inglorious Milton" perhaps, to turn the notices into verse. The little boards which in other parks would have carried the command "Keep off the Grass" in this one read as follows:

"Let no one say,  
And say it to your shame,  
That all was beauty here—  
Before you came."

Other notices had similar verses and it was surprising how much appeal they bore to the public mind. People, far from ignoring them, deliberately sought for them as they strolled through the park and pointed them out to visitors as something quaint and in keeping with the atmosphere of the place. It certainly seems an idea worthy of more general application—an ingenious method of employing rhyme to emphasize the force of reason.

## The Load Was Lightened!

## NEWS FROM Victoria

By J. K. Nesbitt

VICTORIA — Next Tuesday afternoon, with all the fancy trimmings, the first session of B.C.'s 24th Legislature (since B.C. entered Canadian Confederation in 1871) will be formally opened by Lieutenant-governor Clarence Wallace.

It will be the second session this year. Not often are there two sessions in a year. This one, of course, was made necessary because there was so much unfinished public business when the government collapsed on the floor of the House last March.

His Honor will wear his picturesque Court uniform of tight fitting trousers, jacket heavily encrusted with gold braid, and cocked hat with white feather plume.

He will be accompanied by his aides; there will be a gun salute, and a guard of honor. In other words, there will be all the time-honored trappings of pomp and circumstance.

After the opening, the Governor and Mrs. Wallace will give a late-afternoon reception for 400 guests at Government House. There will be no other Government House partying this session.

What a different Legislature we'll see next Tuesday! What changes the people brought about when they went to the polls last June — what utterly ruthless changes! It was certainly out with the old and in with the new.

It will be a smiling and confident Premier Bennett who will meet the Lieutenant-governor at the top of the Buildings' steep stone steps and escort him into the legislative chamber. Who, in Mr. Bennett's shoes, wouldn't be smiling and confident? Two years ago this time he was, you might say, nobody's nuthin'. This time last year he had been catapulted by the strange winds and unpredictable tides of politics into the Premiership — but of a minority government, an unhappy, frustrating position for any man to be in. But all is different now; Mr. Bennett heads a majority government, and so he'll be boss of the Legislature. What he says will pretty well go. A spectacular rise to power, that's what it is, so no wonder Mr. Bennett smiles and looks pleased with himself and his Social Crediters.

There'll be only one woman in the House this time — Social Credit's Mrs. Lydia Arsens of Victoria. For more than 20 years there has always been more than one woman. Once, from 1941 to 1945, there were five. In the last 10 years there have been two; last session there were three. But those three — Education Minister Tilly Rolston, Liberal Mrs. Nancy Hodges and CCF Mrs. Laura Jamieson were beaten at the polls in June, Mrs. Rolston carries on as Minister of Education, but will have to face a by-election in the next few months if she wants to try and gain a seat in the House.

This represents an extremely sorry state of affairs, especially in the House is cut back to one. The ladies, through the years, have done good work in the Legislature, and it's a shame, and a great loss, that there aren't half a dozen. But, as we've said before, women have a tough job getting elected; the voters are far less choosy when it comes to electing men.

Yes, indeed, what changes we'll note in the House next week. There will be a few, familiar, well-loved old faces, such as Mr. Uphill of Fernie, there since 1920, and Mr. Winch of Burnaby, a member since 1933. The four Liberals are brand new to the house; only Mr. Gibbs of Oak Bay sat before, and only for one session. The only Conservative, Dr. Giovando of Nanaimo has had only one session. Of all the 28 Social Crediters, only Premier Bennett can look back on more than one session. A few CCFers go back to 1945, but no more than a few.

However, there's no reason why it can't be a good Legislature. There's always a great deal of talk about experience being necessary to good law-making. But that's not so. Many a tyro has been a good law-maker right off. Besides, experience has to start somewhere, the young fellows have to get their first chance sometime.

**MACE & ORANGE SWEET BREAD**

Mix and sift 3 times, 2 1/2 c. once-sifted pastry flour (or 2 1/4 c. once-sifted hard-wheat flour), 3 1/2 teps. Magic Baking Powder, 1/4 tsp. salt, 1/2 tsp. ground mace, Cream 1/2 c. butter or margarine and blend in 3/4 c. fine granulated sugar; beat in 1 well-beaten egg, 1 tsp. grated orange rind and 1/2 tsp. vanilla. Add dry ingredients to creamed mixture alternately with 1/2 c. milk. Turn batter into a loaf pan (4 1/2" x 8 1/2") which has been greased and lined with greased paper. Bake in moderate oven, 350°, about 1 hour. Allow loaf to cool in pan. Spread sliced cold bread with butter or margarine for serving.

**Flies Everywhere Even In Kelowna**

Alderman W. D. Haddleton is still troubled with flies although his mosquitoes are not so numerous. So he informed his colleagues as council prepared to adjourn after a four-and-a-half hour session last night.

Acting Mayor Wilson Hunt sadly agreed with Alderman Haddleton that, despite the spraying, there are more flies this year than ever before.

It was revealed that Kelowna is also suffering from flies and this information served to cheer Alderman Haddleton a little, although he mourned the fact that not one of the aldermen had seen fit to accept his recent challenge and sit on his lawn with shirt sleeves rolled up in defiance of the mosquitoes.

**Growers Learn**

(Continued from Page One)

**NO CEE GRADE**

To the amazement of the listeners he declared that he packed only fancy and extra fancy grades in the two eating varieties he grows. His apples are sold each morning in the market place at Coventry by auction.

While he felt that this method of marketing encourages the production of high quality fruit, he expressed admiration for B.C. Tree Fruits and felt that the central selling agency was best under the conditions here and in view of the fact that the grower is so far distant from his market.

Discussing the possibility of reopening the United Kingdom market to Canadian apples, Mr. Roberts expressed regret at what he called a "world economic problem."

"We (the British grower) have no objection to Canadian apples... they don't clash with ours... we have a gap in February," he said, and as a step towards a solution he suggested a greater market for British goods in Canada to help restore a more favorable balance of payments.

Praising the apples imported by Britain from Australia and New Zealand, Mr. Roberts condemned what he called the tasteless "blotting paper" apples grown in Italy which he said the Italians are mistakenly convinced are going to capture the British market.

He touched on the type of apple the British consumer wants and said that what the Americans call "eye appeal" does not always go, as the British like the Australian Granny Smith apple which is green... and they also much prefer the smaller sizes of fruit.

**NO PROCESSING**

Questioned on processing, the speaker said that this branch of the industry has not been developed in England. "We can't see the sense in growing apples which we will get five pound a ton for — they are better thrown out."

He explained that he grew three varieties — one cooker and two eating varieties. One of these latter was the Cox's Orange of which he said, "Nothing will replace it on the British market. It is the finest apple in the world as we grow it."

He felt the chief difference in apple growing in the two countries was that in England they do not irrigate, because temperatures are lower and evaporation less than here.

He admitted that he could not grow as many bushels to the acre as are grown in the Okanagan, but said that the trees are kept smaller than they are here by his pruning method. Because the British market favors the smaller apple very little thinning is done, he said.

Following his interesting and informative lecture and the lengthy question period which could have been called an exchange of ideas as the speaker asked almost as many questions as his audience, Mr. Roberts was thanked by J. W. McConnachie.

**TRACK BLOWN;  
NIGHT BOMBERS  
ELUDE POLICE**

No new developments have been disclosed regarding the track blasting of the CPR line three miles north of Penticton in the early hours of last Saturday morning. RCMP are conducting an investigation into the explosion that ripped out a section of rail shortly after the midnight freight train had passed.

A. Schwenk, orchardist on the bench, telephoned RCMP a few minutes after the blast showered his home with gravel and debris but the police car was dispatched to the wrong road and before Mr. Schwenk could correct the error, the night bombers had made good their escape.

R. L. Overend, residing within approximately 800 feet of the blast scene, reported he and his wife heard cars, believed to be two old models, roar away following the blast. In the opinion of the couple, occupants of the speeding cars were young people and Mr. Overend says he heard one of them excitedly repeat "Keep going George, keep going George."

The track blasting, while resembling previous exploits of the radical Doukhobor Sons of Freedom in other parts of the province, has not been linked with them although at the present time there are said to be a number of the sect among the Doukhobors working in orchards here.

Reports say the blast woke residents in Peachland, approximately 25 miles up the lake.

Recent decision of City Council to take stern measures against trade license delinquents has brought results. Six weeks ago there were 103 delinquents. Now there are none.

London's coffee-house was opened in 1652 in St. Michael's Alley.

**What would YOU do with \$1.14 a day you could save with a Hillman Minx?**

You could start planning a trip to Bermuda with the money a Hillman Minx can save you. Or you might take out \$15,000 worth of life insurance, or rent a summer cottage or buy a boat!

Actually, a Hillman Minx can save you up to \$1.14 a day — \$416.43 a year — over other popular cars. But don't take our word for it. Go to any one of the Rootes dealers listed below and ask for the booklet "This is Your Proof".

Almost everything costs less with a Hillman. The initial price is close to the lowest and you get up to 35 miles on a gallon of gasoline. And with all its economy, the Hillman seats five and is a wonderful family car in every respect.

Another point — no other imported car can match the Hillman Minx for expert service — available parts supply. Make a date with your nearest dealer to drive and discover the Hillman Minx!

## In And AROUND TOWN

Mr. and Mrs. Kenneth Davenport motored to the coast on Sunday to spend the Labor Day weekend visiting in Seattle.

The Women's Auxiliary to the Penticton Peach Festival Association will meet this evening at the Incola Hotel to submit reports and close the business in connection with activities of the 1953 festival season. Mrs. A. Earl Wells, president of the WA, extends an invitation to all interested to attend the meeting which will be the final session for the current year.

Mr. and Mrs. L. J. Light and Miss Roberta Light returned to Penticton last week, after holidaying for the past two weeks in Saskatchewan. They left the city again on Sunday to motor to Vancouver where Miss Light has resumed her teaching duties. Following a brief stay at the coast Mr. and Mrs. Light have returned home.

Mr. and Mrs. Warren Rolls and daughter, Sherrie, returned to Penticton on Sunday from Vancouver where they had spent the long weekend. Accompanying them to the coast were Miss Maureen Rolls and Miss Delta Appigli, who travelled on to Victoria where they will take their teacher's training at the Normal School there.

Among the recent visitors in this city with Mr. and Mrs. Alex Turnbull were Mr. and Mrs. John E. Rietchel and son, Craig, of Vancouver, and Miss Isabel Turnbull and Mrs. J. Parslow, of New Westminster, all here for the weekend. Guests at the home of Mr. and Mrs. Turnbull last week were Dr. and Mrs. A. E. Davidson and children, of New Westminster.

Mrs. Phyllis Stobie, former secretary of the Penticton United Church and small daughter, Catherine, left this city recently to take up residence in Vancouver. Mrs. Stobie has accepted the position of secretary to the department of social service and evangelism in the western office of the United Church of Canada.

C. R. Wilton, of White Rock, spent a few days last week visiting in this city with his parents, Mr. and Mrs. R. S. Wilton.

Mr. and Mrs. J. D. Southworth and daughter, Sharon, returned to Penticton on Sunday after holidaying for the past month at their summer cottage on the Arrow Lakes near Robson.

Mr. and Mrs. Ray Jonasson and son, Chris, of Trail, were weekend visitors in this city with Mrs. Jonasson's mother, Mrs. Flora Apland.

Miss Marjorie Pauls, of Seattle, spent the Labor Day holiday in Penticton with her parents, Mr. and Mrs. P. F. Pauls. Miss Pauls is a student at the Swedish Hospital in the coast city.

Mr. and Mrs. E. Ted Moore, son Tommy, and Mr. and Mrs. Ernest Burdall have returned to Penticton from a brief visit in Vancouver where they attended the PNE and visited other centres of coast interest. The latter couple are here from Ilford, Essex, England, visiting their son-in-law and daughter, Mr. and Mrs. A. F. Day, and the Vancouver trip gave them their first view of the Pacific coast. Mr. and Mrs. Burdall left for home last week after spending the past four months in this city.

At the first fall meeting of the Junior Auxiliary to the Penticton Hospital scheduled for Tuesday at 8 p.m. in the Red Cross Centre, plans for the organization's annual autumn dance will take precedence over other business of the evening.

## Touring Country Women Of World Welcomed To O.K. Valley By WI Delegation

Mutual interests and problems pertaining to women throughout the world with particular emphasis placed on those of rural residents kindled instant friendship and cordiality between touring Associated Country Women of the World as they arrived in Summerland on Friday and a large representation of members from Women's Institutes of the South Okanagan, who greeted them on their arrival. The twenty-three visiting delegates from many distant countries recently attended the seventh triennial conference of ACWW held in Toronto and were participating in one of the arranged Canadian tours.

### ENTERTAINED EXTENSIVELY

Entertained extensively as they travelled across the country by train and bus the delegates were given an enthusiastic welcome by more than one hundred and fifty WI members as they arrived in the South Okanagan by guests at a buffet supper in the Summerland IOOF Hall preceded by a visit to the Dominion Experimental Station. After transferring from the bus which had brought them from Vernon where they made an earlier stop the visitors were taken by car to the beautiful experimental station where they toured the gardens under the guidance of N. May and L. G. Denby, station staff members.

### MRS. S. E. GUMMOW

Accompanying the country women from other nations on the western tour were Mrs. S. E. Gummow, superintendent of B.C. Women's Institutes, and Mrs. A. Shaw, provincial president and chairman of the FWIC field committee. Among those present to welcome the travellers were the presidents of the hostess Institutes, Mrs. John Bowen Colthurst, Penticton; Mrs. C. H. Elsey, Summerland, and Mrs. Donald Salting, Naramata, and members from assisting organizations of Kamloops, Arrowton, Okanagan Falls and Oliver.

Prior to the buffet supper which featured many foods typical to Canadian picnic meals; locally grown peaches, apples, cantaloupes, tomatoes and other salad vegetables, the guests were addressed briefly by Mrs. Elsey, of the Summerland WI. A most interesting and comprehensive summary of the history of the Okanagan Valley and other data pertaining to its fruit industry was given by Arthur Mann, assistant superintendent at the Dominion Experimental Station.

### NATIVE COSTUMES

One of the most colorful highlights of the occasion was when Mrs. Gunvor Saeveder, the delegate from Bergen, Norway, dressed in native costume, and speaking English with the slightest trace of accent, expressed the appreciation of the visiting Country Women of the World for the outstanding hospitality extended them during their stay in Canada. The charming delegate, who is president of her organization in Bergen, thanked the hostess groups and expressed pleasure at the example of how men and women work together in "Canada." Continuing, she said, "men in Norway are rather aloof in this respect."

The attire of the slender Norwegian attracted considerable attention. Her finely pleated long skirt of black Gloria was worn with a white blouse richly adorned with embroidery. Her basque, also of black, was front closed by clasps and delicate chains of silver and complementing the costume was a large silver brooch of exquisite filigree. Among other delegates appearing in dresses of their native lands were Sonja Fredgarth of Marieholmsgaven, Malmö, Sweden, and the Japanese visitor, Mrs. Yoshie Omura, of Yokohama. The latter wore a picturesque kimono, resplendent with colorful eastern embroidery.

### MUTUAL INTERESTS

Conversations between the visitors and Valley women reflected the many mutual interests in home and farm life. The beauty of the Okanagan and the vastness of Canada intrigued the guests; abundance of delicious food and the hospitality of the various hostesses were most pleasing to them.

Small orchard holdings caused a certain amount of comparison with their much larger acreage under cultivation. The charming delegate from most Australia, Mrs. Alice Dorothy Hunter, of Mingenew, told of the 6,000 acres which they operated. Of this amount 1,500 was under cultivation to wheat, barley and rye and they raised 3,000 sheep.

## First Fall Session For BP Club Members

The Penticton Business and Professional Women's Club is convening for its first meeting of the fall season on Friday evening in the Alexander Room of the Canadian Legion Hall.

Following the dinner which starts at 6:15 p.m. a business session will be conducted under the chairmanship of Miss Joan Appleton, president of the club. Among several matters of interest to be discussed during the evening will be the selection of a voting delegate from the club membership to attend the forthcoming provincial conference to be held in the Empress Hotel, Victoria, on October 10, 11 and 12.

Of particular interest to the members will be the report to be presented during the evening by Miss Muriel Power, who recently returned to this city after attending the International Congress of the World Federation of Business and Professional Women's Clubs held in July at Stockholm, Sweden.

The executive of the Penticton club extends a cordial invitation to members of other B.P. Clubs to attend the forthcoming monthly session. Those desiring to attend should contact Mrs. James Hendry by phone by Thursday noon time.

## Miss Elizabeth Sutherland, Allan Schoening To Wed

An evening ceremony on October 3 in the Penticton United Church will unite in marriage Miss Elizabeth Margaret Sutherland, of this city, and Mervin Allan Schoening, of Ottawa. The formal announcement of the forthcoming nuptials was made this week by the bride-elect's parents, Mr. and Mrs. Ian Sutherland.

Mrs. Howard Duncan will be matron of honor for her sister, who has been a member of the Penticton school teaching staff since her graduation from the Provincial Normal School in Vancouver. Other attendants for the bride-elect will be Miss Isabel Cole, of Edmonton, bridesmaid, and the little Misses Ann Barnes and Linda Schoening, nieces of Mr. Schoening, as flower girls.

Mr. and Mrs. Albert Schoening, of this city, are parents of the groom-elect, who graduated with a degree in chemical engineering from the University of British Columbia in 1948 and received his M.A. in 1949. He is with the Sherritt Gordon Mines Ltd. in Ottawa. Ernest Schoening, of Penticton, will be best man for his brother at the autumn wedding.

Mrs. Douglas Woolley and Miss Muriel Woolley recently returned to this city after holidaying for the past month in New Zealand. They travelled via the British Commonwealth Pacific Airlines.

Mr. and Mrs. L. Weatherbie, Calgary avenue, have returned home after a two months' trip through the Maritime Provinces and a visit to their former home in Charlottetown, Prince Edward Island.

## Miss Joan Bennett Bride Of G.G. Johnson At Ceremony In St. Andrew's, Summerland

Baskets of graceful coral-pink gladioli blooms bearing the same name as the bride ornamented St. Andrew's United Church in Summerland on Saturday afternoon for the marriage of Miss Joan Charlotte Bennett, daughter of Mr. and Mrs. E. H. Bennett, of Summerland, and Geoffrey Garneys Johnson, son of Mr. and Mrs. R. W. Johnson, of East Kelowna. Rev. T. W. Reed, of Vancouver, and Rev. C. O. Richmond officiated at the ceremony.

## Schorn - Pollock Rites In Oliver United Church

OSOYOOS — On September 5 at 2 p.m. in the Oliver United Church, Terence Frederick, eldest son of Mr. and Mrs. F. R. Schorn, of Osoyoos, and Joyce Marian, youngest daughter of Mr. and Mrs. G. Pollock, of Oliver, were united in marriage; Reverend S. Pike officiating. The bride was given in marriage by her father, Miss Verna Fleming, of Oliver, was maid of honor, and Dale DeMerchant, of Osoyoos, was bestman.

The bride wore an attractive mauve wool suit with purple accessories. The maid of honor wore a blue and white suit with dark blue accessories.

After the wedding a reception was held at the Reopel Hotel in Oliver. Only the immediate friends of both families were present.

The young couple left for a short honeymoon, after which they will take a plane for the east where the groom will enroll at the Ontario Institute of Mines at Haliburton, Ontario.

The bride, given in marriage by her father, who is well known for his culture of beautiful gladioli and other Okanagan Valley flowers, was charming in her all white lace and net over satin gown styled with fitted bodice, tiny self covered buttons to waistline, sleeves in lily point and beffant skirt paneled with lace trim. Missing from a bonnet of effect lace trimmed satin head-dress was the chapel length veil of net studded with stars. Complementing her attire was a necklace of pearls, a gift of the groom, and her bouquet of white roses and heather centred by the lovely Joan Bennett gladioli.

A harmony of pastel pinks and blues fashioned the frocks, all styled identically, worn by the bride's trio of attendants; Miss Joan Kitchen and Mrs. Ted Dennett, both of Vancouver, the former in delphinium blue and Mrs. Dennett in rose pink over blue and Miss Wilma Unwin, of Penticton, in blue over pink. They all wore blue velvet waist bands, pleated blue and pink hair circlets and carried roses and heather.

Ted Johnson, the groom's brother, was bestman and ushering were John Gurling, Vancouver, and John Bauer, East Kelowna. Mrs. Joan Zimmerman and Mrs. Rex Fitzgerald, were organist and soloist respectively.

At the reception held in the beautiful garden at the home of the bride's parents, Dr. James Marshall, was master of ceremonies and S. A. MacDonald proposed the toast to the bride. Serviteurs at the reception were friends of the bride from Kelowna, Summerland and Penticton where she had been the former home economics teacher at the high school. The groom attended the University of British Columbia and the bride is a Summerland scholarship winner and a graduate of UBC.

The young couple left for a motor trip honeymoon to the States, the bride wearing a red woolen dress, white woolen stole, navy velvet hat and navy shoes. Mr. and Mrs. Johnson will take up residence at the coast.

Visiting over the Labor Day weekend with Mr. and Mrs. David Nelson-Smith, of this city, were Mr. and Mrs. Ivor Archer and daughters Joan and Suzanne, from Vancouver; Mrs. Francis Ferguson, Tucson, Arizona; and Mrs. Nelson-Smith's mother, Mrs. A. Charter, of White Rock.

## Presentation Of Annual Scholarship At First Fall Session Of Local IODE

Of particular interest at the first meeting of the fall season, held by the Diamond Jubilee Chapter Imperial Order of Daughters of the Empire on Tuesday afternoon of last week at the home of Mrs. F. F. Lowie, Skaha Lake, was the presentation of the annual scholarship award to Ronald Friend by Mrs. Neil McElroy, president of the local order. Valued at one hundred dollars the award is made annually by the IODE to the Penticton High School student receiving the highest marks in senior matriculation examinations and who is going on to higher education. Present for the occasion was high school principal, H. D. Pritchard.

Several other matters of interest were presented during the business session. Mrs. H. G. Nares and Mrs. J. B. Feeney were appointed co-conveners for the annual IODE rummage sale to be held on October 17 in the K.P. Hall.

## ADOPT SCHOOLS

The members voted to "adopt" the Coalmont School; this makes a total of three isolated elementary schools, which are included in the educational program of the Diamond Jubilee Chapter. Other "adopted" schools of the district are the Olalla and Tullameen schools. Mrs. Feeney, acting educational secretary in the absence of Mrs. E. W. A. Cooper, is making a collection of suitable books to be sent to the students at the schools following the October meeting. Concluding the discussion on the schools Mrs. McElroy presented a very interesting report on the annual visit to them in June when small gifts of chocolates, candies and soft drinks were given the children. Other reports submitted during the afternoon included one by Mrs. W. L. Peaker in which she outlined details of the decorated float which the IODE had entered in the Penticton Peach Festival parade. The local Sea Cadet

## CHRISTMAS GIFT PROGRAM

The Christmas gift program for overseas service personnel was discussed and Mrs. F. Donald Corry was again appointed to supervise the arrangements. The members of the chapter will take donations of various articles, small Christmas cakes and home-made cookies in sealed tins, pocket size books, magazines and writing materials, to the October meeting to be wrapped and sent to Korea for distribution. This source of distribution is in an endeavor to supply seasonal gifts to many who are not reached by other distributional agencies.

Following the adjournment of the meeting refreshments were served to the large number present by the hostesses, Mrs. H. E. Chalmers and Mrs. A. L. Longmore. The October session of the Diamond Jubilee Chapter will be at the home of Mrs. A. J. Cowie.

## Meet Cpl. Henry T. Bowen\*

Driver-Mechanic of the Infantry.

\*Army trained, Corporal Henry Bowen's job as a Driver-Mechanic has allowed him to see a great deal of Canada. He has also served in England and the Far East. Proud father of three children, Corporal Bowen and his wife both agree on the many advantages of Army service.

### Got Expert training, in Automotive Trades

Young men interested in mechanics can learn skills in automotive trades when they serve with the Soldier-Tradesmen of the Infantry. Expert instructors give complete training in modern schools and with most advanced methods and equipment available.

Men like Cpl. Henry Bowen know how important their jobs in the Army are to Canada's safety. In the Army, they also know that they are building good sound futures for themselves. For soldier-tradesmen like Cpl. Bowen enjoy many advantages in our modern Canadian Army: excellent pay, financial security through long term service pensions, the best medical and dental care - outstanding chances for promotion. There are challenges and the job is a big and important one to all Canada.

You are eligible if you are 17 to 40 years of age, (skilled tradesman to 45), and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when applying for interview.

Apply right away: Write or visit the Army Recruiting Centre nearest your home.

## Prices Down From 1952

## Over 600 Head Of Cattle Sold

Although the per head price of stock sold at the Southern Interior Stockmen's Association annual auction last Wednesday brought less money than in the previous year, an association spokesman described the show and sale as "most successful."

Six hundred and one head brought a gross total of \$69,871.53, which is approximately \$50 per head less than in 1952. Lower market prices generally and a slightly different offering at the sale this year accounts for the drop in total receipts. Good quality stock, however, was being bid to full market price at the Okanagan Falls yards and compared favorably with similar sales recently.

Top bid of the show was \$25 per hundred which Swift Canadian gave on the reserve champion, a 16-month-old Hereford calf entered in boys' and girls' calf club class by Shirley Thomas. The 1,050 pound Hereford steer that won Charlie Thomas the grand championship of the show, ran a close second. Burns and company bid \$24.85 per hundred weight for the animal which brought \$620.93, the highest price paid for a single animal.

The average price paid for 313 steers was \$131.27, the 99 cows auctioned brought about \$93 per head, 112 heifers average \$111, calves sold at an average of \$71 for the 61 entered, six bulls averaged \$164 and ten entries from calf clubs and open singles averaged about \$182.

Val Haynes, well-known rancher in this area for many years, followed his usual generous practice of making a gift to St. Martin's Hospital at Oliver. He purchased Herb Allen's calf club entry and resold it for \$207.34, which he donated to the hospital.

The majority of large meat packing firms from the coast were represented and a number of interior firms doing considerable buying. Several loads of feeder cattle were bought by cattlemen in the Kelowna and Lumby districts.

SISA has set the date of its late fall sale for October 21. At that time buyers will have the opportunity of purchasing purebred registered bulls.

## Nephew Of City Woman Partner In Sea Adventure

The nephew of a city woman was one of the actors in a recent modern sea drama.

John Clifford Helston, nephew of Mrs. Margaret Michie, of this city, was one of a group of seafaring adventurers who survived an 11-day voyage from Oslo, Norway, to London, England, in a 26-foot aluminum lifeboat.

A 21-year-old Winnipeg youth, Helston went to London two years ago to study philosophy. The story of his adventure was carried in the Winnipeg Free Press and Mrs. Michie received a copy of the paper.

The boat, a newly designed lifeboat powered by a 10 horsepower motor, was commanded by Captain Lief Larsen, a Norwegian seafarer recognized as one of the most decorated allied sailors of the last war.

Captain Larsen is also known as the co-author of the book "Kon-Tiki" which recorded Thor Heyerdahl's raft voyage from South America to Polynesia in 1950. Captain Larsen served as engineer on that famous voyage.

## 'LEARNING UNLIMITED' AT LOCAL NIGHT SCHOOL; OPENS OCTOBER 1

Just as the school bell rang for young Penticton yesterday, so it will ring for Mom and Dad and the rest of the adult community in Penticton and district when night school opens its doors for the 1953-54 season on October 1.

Each year more and more men and women from the greater Penticton area obtain instruction in some vocational, recreational or cultural activity or subject under capable instructors, and at a minimum cost, in the evening classes provided by the Adult Education Department of the Penticton Board of School Trustees.

Last week J. Y. Halcrow, director of the school, announced tentative plans for the forthcoming season, with the possibility of an expanded program to meet the growing needs of this expanding community.

In the adult education program lies an opportunity for "learning unlimited," operated by the school board for the benefit of the entire community. The courses offered have been built up through popular demand and it is hoped that new courses may be added this year.

Classes will be conducted regularly in the new school building after registration takes place on October 1. Most courses take place during one two hour session one evening a week and continue through until the end of March. However, it is hoped to offer a number of new shorter courses in a variety of subjects, while some courses may continue through until the late spring.

For those who are interested, they are asked to obtain from the school office at 158 Eckhardt avenue west, pamphlets and information on night school courses and details after September 15. Courses tentatively planned for this year include: woodworking,

painting for pleasure, leathercraft, typewriting, shorthand, public speaking, dressmaking, advanced and for beginners, building construction, interior decoration, flower arrangement, ceramics, audubon lectures, first aid, home gardening, English for new Canadians, conversational French, visual education, auto mechanics, men's choral group, ladies' choral group, dramatics and allied arts, and orchestral group.

Classes are open without restriction as to residence, to persons 15 years of age or over who are not attending an elementary, junior high, or senior high school.

The Board of School Trustees reserves the right to discontinue any class in which the enrollment is less than 15, or at which the attendance or progress is reported unsatisfactory by the director. Fees for the full year are payable at the time of registration, except where courses have been organized on a different basis. In all cases the fees are small.

## Air Cadets Resume Training Next Week

The first Air Cadets parade of the 1953-54 training year will be held on Monday, September 14. This parade and all subsequent parades will be held in the Penticton Armouries at 1900 hours every Monday night.

All cadets and cadettes are to parade next Monday for the purpose of inventory checking, flight allocations and training schedules. Any young men, between the ages of 14 and 18, who are interested in becoming air cadets or of learning more about the movement are invited to attend. There will also be a few vacancies in the cadette flight and any girls interested should contact squadron headquarters in the Armouries next Monday night.

## Increase In U.S. Tourists Reported

Clouds over the July holiday scene failed to dim British Columbia's reputation as a favorite attraction for American tourists. Peak-of-season figures, released recently revealed a three percent increase in vehicle entries from the United States as compared with last July's record figure.

Undaunted by unseasonable weather throughout the Pacific Northwest, 48,503 motorists received travellers' vehicle permits for July visits of longer than 48 hours. This is 1,430 more than the total of 47,073 cars which crossed the border in the same month last year. The new figure boosted British Columbia's visit-or-total to 152,255 automobile entries for the first seven months of the year, an increase of 8,594 over the 143,661 permits issued up to the end of July, 1952.

This gives the province a six percent lead over last season's traffic in its drive toward a new record total for the year.

"Too many 'Don'ts' and 'Mustn'ts'" in a young child's training may have the effect of developing antagonism and resentment. It helps to explain why certain orders should be obeyed and certain actions are not permitted.

WITNESSING a Red Feather ceremony in Chicago's Congress Street Plaza proved too much for Bettie and Barbara Robertson, 11-month-old twins, and their downtown trip ended in dreamland. The ceremony was sponsored by the Community Fund which enlists the aid of children named "Red Feather Kids" to help raise funds for the support of welfare agencies.

## CNR Chief Donald Gordon Here

## CNR Steel Into Penticton When Dollar Potential Justifies Move

"Just like everyone else—the Canadian National is interested in making a dollar or two."

With a hearty laugh, Donald Gordon, CNR chairman and president, made this comment to the Herald when he was a visitor to Penticton last Saturday afternoon.

Mr. Gordon, like the system he represents, is big and broad. He makes friends readily. And, in sharp contrast to many highly placed executives, he actually seems to relish questions.

"When will the CNR be putting rails into Penticton?" It was the obvious question that would be asked him here.

"Whenever we have the traffic to make that dollar or two," he replied.

He confessed that he most liked questions to which he could give an immediate and decisive answer.

At Kelowna, he added, he'd been asked by a delegation if the CNR would put a new hotel in there.

He'd given the immediate and decisive answer. It was "no".

The CNR is not going to put any hotels in relatively small centres, but only in the largest commercial centres, as a supplemental to travel for the very largest numbers of people.

Mr. Gordon drove here from Kelowna in the latter part of Saturday afternoon, and was greeted at the Prince Charles Hotel by Alderman Wilson Hunt, as acting mayor, and by other representatives of civic organizations and the fruit industry. Accompanying him were his wife, a bride of but a few months, and Mr. and Mrs. D. I. Grant. Mr. Grant is the secretary of the CNR system.

The members of the party were dinner guests at the home of Mr. and Mrs. Douglas Dewar at Banbury Fold, before they returned to Kelowna to resume their transcontinental trip.

Mr. Dewar was Mr. Gordon's chief associate in the period when the latter headed Canada's Wartime Prices and Trade Board and they are close friends of long standing.

In the five and a half years following the war, one Canadian company in four operated at a loss.

In the 1951-52 season 42,654 skunk pelts, worth about \$1.50 each, were exported from Canada.

LES EDWARDS  
... success seems sure

# Kiwanis Offer To Sponsor Little League Ball

There is every indication that the Penticton Kiwanis club will sponsor Little League baseball here. The club sent a delegation from an executive meeting last Friday night to a meeting of Little League promoters with the announcement that they were prepared to take over complete sponsorship of Little League baseball.

This move by the Kiwanis makes it almost certain that Little League will be operating in this city next spring. The enthusiasm among service clubs and private individuals has amazed even the optimistic promoter of baseball for little guys, Les Edwards.

There were definite hints that Kiwanis was interested in playing a large role in Little League even before Edwards spoke to the club at its regular Tuesday luncheon meeting recently, but their proposal for complete sponsorship was a little unexpected. Kiwanis would administer the league, which will likely comprise four teams, in accordance with the policies of Little League, select sponsors, obtain playing field and build it to specifications and look after the hundred and one details connected with running a baseball league.

Even though Kiwanis was rumored to be interested in sponsorship of the league, Edwards held the Friday meeting, as scheduled sometime earlier, and the group of 22 men and women were prepared to organize the Little League project among themselves. Fifteen people sat in

round table discussion with Edwards as he outlined the requirements of a four-team Little League and the evening progressed a few more interested people trickled in to sign their names on the list.

Edwards, chairman of the meeting, said he had expected to see a bigger turnout but reminded those present that some of the most successful Little Leagues were operated by an executive of 15 to 20 people. As suggested by Little League, a temporary executive was set up to get the ball rolling. Phip Hatfield and Cal Callaghan are serving on a committee with Edwards for procurement of a ball park; Wes-

Wensley, George Cady and Edwards took the finance committee; Frank Higgins, Art Fisher and Edwards form the sponsorship committee.

It was agreed that this skeleton executive would act for the group until a general meeting could be called. At that time the temporary body is to report its findings and a permanent executive is to be formed.

In order to attract widespread interest in the general meeting, Edwards suggested that a Little League type ball game be held in King's Park. Early this week he said the game would likely be played this Friday and the gen-

eral meeting held the following Monday.

Acceptance of the Kiwanis offer to sponsor Little League will be more or less just a formality of the meeting unless something unforeseen arises. Organization of the executive would then be turned over to the club.

The quick response to the call for Little League support is indicative of the value sportsmen feel the project will be to the community and the league already has two team sponsors. First to come forward was the Lions club and, from all reports, its enthusiasm for sponsorship carried no price tag restrictions—a "whatever it costs" attitude that gave Edwards a big lift in the first week of his campaign.

Paul Maslenk gave every-

one at the Friday meeting a shot in the arm when he announced that the local carpenters' union had discussed the Little League idea at a recent meeting and were prepared to back a team if given the opportunity. This sports-minded group has a membership of 100 in the city.

Preliminary estimates place the cost of outfitting a Little League team for the first season at \$250. In following years the cost (Continued on Page 3)

## SEATTLE WINS HOLIDAY BALL FEST

### Coast Club Defeated By Circuit Clouts In Sixth

#### Hunting Opens Next Tuesday

"Hunters, please read the game regulations," says Adam Monks, game warden, as he prepared to go into his busiest season next Tuesday, the opening of the hunting season.

Comparing the game regulations for this year and last discloses a number of important changes and Mr. Monks says that more than a cursory review of the new hunting rules was advisable for all sportsmen before entering the field.

On the whole, the provincial game department has provided for an abundant season with larger bag limits and longer seasons in a number of cases.

Duck hunters will have one of the longest seasons in many years. In this district the season opens October 24 and extends into January of the new year.

Mr. Monks pointed out that the regulations this year have new sections regarding the possession of firearms after dark which should be read closely to avoid any unpleasant misunderstanding.

During the OMBL season, Athletics made an average of 2.5 errors per game. This was the lowest average for the league.

The only sock of its kind in the world

Surpasses all others, for comfort and foot health. Undyed yarns are used to make the inner sole and toe part of the sock which comes in contact with the tender area of the foot. Two layers of fabric (no heavier than ordinary single sole) separately knitted, provide insulation and comfort never before experienced. Twin-Soles replace the rough knitted ridges that are next to your foot with the reverse smooth, soft side of the fabric. Feel the difference and enjoy this extra comfort... For Your Health's Sake.

1.50 - 1.75 and 1.95 pair

## District Tennis Stars Dominate Valley Tourney

Net players from the southern end of the Valley captured a major share of the trophies at the annual Okanagan Valley Tennis Championships played on the Vernon Country Club courts over the holiday weekend.

### Playoff Baseball

Penticton Athletics engage the Oliver Elks in the first round of the OMBL playoffs this Thursday in King's Park under the lights. Kelowna plays Kamloops this Sunday. The semi-final round will be a best of three series as will the finals.

### Basketball Refs To Meet In Vernon

Bob Hall hopes to have some outstanding basketball referees from the coast—such as Basil Sands—on hand for the first refereeing organizational meeting which will be held in Vernon, September 27.

The meeting will elect officers to the Interior Basketball Referees' Association set up for rates for officiating, problems of the hoop game will be talked about and new rules will be discussed.

**CORRECTION** — The group which sponsored midgeet baseball in this city was not the Canadian Legion Auxiliary, as previously reported in this paper. The Ladies Auxiliary to the Senior Baseball Club was the sponsor.

## A'S DUMPED BY SUMMERLAND IN ERROR-RIDDLED FIXTURE

What is going on here? Athletics battle their way through the toughest company in the OMBL to win the pennant then last Wednesday evening Summerland drove them into a corner with a 5-1 defeat. Either Penticton was resting on their laurels or Summerland has finally found out what makes the A's tick.

Judging from the box score, however, the local nine were just coasting along in the exhibition tilt—probably saving themselves for a crack at the Labor Day ball tournament loot. Whatever the reason, Summerland climbed steadily from the beginning while Roy Wakabayashi hurled a three-hit triumph from the mound to keep Athletics' batters in check.

Larry Jordan started on the hill for the A's and was doing a fair job until the fourth and fifth when Summerland clobbered him with an aggregate of five hits and three walks. George Getz came in to do the pitching chores, did a good tour, but the trouble was not in the battery. Most of the regular fans were spared the painful debacle of Penticton's sporting pride with less than one hundred on hand to witness as eight errors shattered the A's defense.

Sam Drosson must have had his glove on the wrong hand or something equally disastrous because he bloomed four times during the evening to win the dubious honor of making half the errors for Athletics. In the sixth inning the ill-fated Sam was moved out of the troublesome shortstop position back to his regular post guarding second sack. Neither club showed much ac-

tivity with the timber and the old apple seemed to be made of lead. The only extra base hit of the fixture went to Summerland's Francis Gould who swung into a double in the fourth.

Entered from the Skaha Lake Tennis and Country Club were Miss Bell, Cardinal, Fudge, Mrs. Darling, Grace d'Abust, Wally and Dee Morgan, Maury Moyle and Brian Mills.

### Register Youngsters Now For Tebo Toddlers Skating Class

Despite sunny skies and warm temperatures the skating season is just around the corner and city skating groups are busy making plans for the coming winter's activity.

Foremost among these groups is the Tebo Toddlers, those tiny skating stars of tomorrow who brought down the house at all of last season's ice shows.

Mrs. Evelyn Tebo plans to get on the ice with her toddlers early in October and she is anxious to get the youngsters registered and her classes organized as soon as possible.

The classes are open to all tots, three years of age and under, free of charge, and parents wishing to have their small fry learn to skate this winter are asked to write Mrs. Tebo at 351 Nanaimo Avenue West, stating the name of the child, his or her age, and their address.

Mrs. Tebo emphasizes that figure skates are not necessary—any kind of skates will do. She also extends an invitation to parents and friends to don their blades and help with the classes. Classes are at 12 noon every Saturday throughout the season. The opening day will be announced later.

Mrs. Tebo is going a step further this year. She is opening the classes to any youngsters who can't skate at all, giving them the opportunity to learn how to stay on their feet before they move up to the more crowded sessions.

**SENIOR BASEBALL**  
Thursday—Penticton Athletics meet Oliver Elks in the first game of the OMBL playoffs. King's Park, 8 o'clock.

**MINOR HOCKEY**  
Friday—Minor hockey meeting at 8 o'clock at the Elks' Hall.

**WOMEN'S GOLF**  
Tomorrow—Qualifying round for the club championship Fraser Cup (18 hole) and the Alice Howard Trophy (nine hole) at local golf course.

**YACHTING**  
Sunday—Penticton Yacht Club organizational meeting at Powell's Boat Shop at Okanagan Lake at 2 p.m. All boat owners and anyone interested in the formation of a yacht club here is invited to attend.

## SPORTS GROUP FADES FROM LOCAL SCENE

Lost sportsmen fail to acknowledge the fruitful efforts of an organization that has now faded from the local scene, a review of its accomplishments, while too late to be of assistance, may, at least, be of some consolation.

The ladies auxiliary to the senior baseball club held its final meeting recently but it has left behind considerable evidence of a successful, if short-lived, existence. The club was formed in 1949 and that year it was instrumental in putting a roof over the seats at King's Park at a cost of around \$960.

The following year, with the assistance of sponsors and the general public, a league of midgeet baseball teams were organized—the first of its kind in the province, the club believes. Raffles, popular player contests and the sale of baseball programs kept the financial end of the job functioning and in the four years of operation earned approximately \$1,640 which helped feed an ambitious budget.

Jackets, which set the auxiliary back \$250, were given to the senior club and five trophies were acquired by the ladies for annual baseball competition. These will now be placed in the hands of the Penticton Athletics with the hope they will continue to direct the club from year to year.

The Ladies' Auxiliary is also turning over two trophies to Les Edwards for Little League competition, when organized.

The ladies auxiliary disbanded because the group found it utterly impossible to obtain the necessary co-operation from elected bodies and the general public in establishing safe and satisfactory baseball grounds for the players.

However, its enthusiasm for Little League baseball is exemplified in the outright gift of over \$200 in ball equipment to their successors, the promoters of Little League Baseball.

In winding up its affairs, the auxiliary acknowledged the assistance of sponsors, donors of trophies and the general public which co-operated with the project.

## PENTICTON RIDERS WINNERS AT ANNUAL VALLEY GYMKHANA

Penticton Riding Club members returned from Kelowna yesterday with a fair share of the trophies and prizes ribbons after competing in the Okanagan Light Horse Improvement and Show Association annual horse show and gymkhana held in the Orchard City on Sunday and Monday.

Over 135 entries, representing riding clubs in Vernon, Kelowna, Penticton, Oliver and Osoyoos competed in the Labor Day event, one of the most successful on record. The weather was perfect and the setting for the two day show would be hard to beat. The show championship was taken by Kelowna's Major G. D. Cameron's "Merrylegs." The Dixie Acland Memorial Cup for the gymkhana aggregate, horse and rider, was won by Miss Betty Beldam, of Oliver, on "Minuet," owned by Miss Evans, of Osoyoos.

Following is a list of the results of the show and gymkhana events in which Penticton Riding Club members placed.

Two-year-old mare or gelding: 1. "Marit," owned by R. K. Owen. Elementary dressage: 1. Captain A. M. Temple on "Jumper." Horsemanship, 17 to 19 years: 3. Liz Titchmarsh riding "Nahda," owned by Chris Cameron. Working Hunter class: 3. Allan Hyndman on "Tint."

Tent pegging: 1. Penticton team (Allie Fletcher on "Query," Dick Coe on Roy Walsh's "Brandy," Eric Hyndman on R. K. Owen's "Wings," Tommy White on V. W. Grant's "Dawn"); 2. Penticton team (Captain A. M.

### Eddie Brown Not On V's List For This Season

Popular Eddie Brown will not be wearing Penticton V's colors this season, newly appointed coach, Grant Warwick, announced Tuesday evening. The release of the busy defenceman follows an earlier report that Don Culley and Don Johnston have been given their unconditional releases from the club.

Third man to be signed by Warwick is scrappy Don Berry who is scheduled to arrive back in town today from Vancouver. George McAvoy and Angelo Deffice were the two early men to ink a contract.

### HOCKEY RESERVATIONS

Season tickets will go on sale for season to season ticket holders September 12 and must be renewed by September 28. For those not holding last year season tickets, tickets will go on sale September 28.

By purchasing a season ticket outright before the season opens, you save yourself the trouble of travelling, parking and lining up each game. The schedule is 32 games and tickets are sold in lots of five or more for the season.

During play-offs your tickets will be held for you, to be picked up at the ticket office. Your season tickets are transferable. You may loan them to a friend, guest or to whom you wish.

Times for ticket sales will be 9-11 and 12:30-5:30. Wed. 9-12 at CLIFF GREYELS - 384 Main St. - Phone 4303

## WOMEN'S GOLF PLAY RESUMED

Over 30 women golfers turned out last Thursday to resume play at the local course after the summer recess.

The spoon sheet and button round for the 18 hole players saw two handicaps reduced when Miss Frances Latimer and Mrs. Sharone Fleming returned with the scores which topped the gold and silver pins for the month of September. Miss Latimer netted 75 for the round, handicaps 24 and under, while Mrs. Fleming scored a net 66 in the 25-30 handicap group.

Nicholl Cup, nine hole competition, winner was Mrs. Maureen Joplin.

Club championship rounds will get underway soon with the qualifying round for the Fraser Cup slated for tomorrow. Championships games will be played at ten day intervals with some allowance being made for the Interior Women's championships being played here September 19 and 20.

Big event of the fall season for nine hole players is set for the same time when the Alice Howard Trophy will be up for competition.

Tomorrow's draw follows.

**FRASER CUP**  
J. Campbell and E. Johnston; P. Betts and G. Ritchie; M. Arsen and H. Latimer; M. Perkins and I. Gille; M. Thom and S. Jamieson; N. Daines and S. Fleming; H. Brodie and G. Mather; T. Frere and Q. Asman; L. Mitchell and R. Moore.

**ALICE HOWARD TROPHY**  
R. Burth and D. Holmes; M. Joplin and A. Lawson; H. Cowie and J. Marlow; G. Dean and E. Garrioch; A. Lye, O. Jones and G. Syer.

**FOOTBALL SLEEPY**  
Activity in the local world of football appears to be a little lacking at present — and here we are into September. Marauders have just begun to dust away the cobwebs of the summer and will be getting down to serious business late this week.

There are very few things that don't grow in the Okanagan but football seems to be one of them. Eyes are on Kamloops.

## KELOWNA MAY GET GOLD CUP RACES IN 1954

KELOWNA — The 1954 Gold Cup races may be held in Kelowna over the July 1 holiday.

This was disclosed last week following Gordon Finch's outstanding victory at the annual B.C. championship speedboat race held at Deep Cove two weeks ago. It was the first time that the Gold Cup has left Vancouver.

According to Mr. Finch and Art Jones, owner of Restless III, there would be little opposition from Vancouver power boat racers if Kelowna made a bid for the Gold Cup classic.

It was pointed out that facilities at Deep Cove do not meet with the approval of many racing enthusiasts as there is too much driftwood floating around in the bay, while the course is somewhat confined.

Many of those who competed in the race have, at one time or another, been in Kelowna, and they are familiar with the local course.

Although this is the first time that the Gold Cup has ever been won by a visiting contestant, speaking the race the following year is staged in the territory where the cup is held.

It is understood that the matter is being studied by the Kelowna Yacht Club, and that an official application will be made to the Vancouver Power Boat Association. An application will also be made to the Canadian Boating Federation to make it a sanctioned meet, and if this is granted it would encourage many outside entries.

Donor of the Gold Cup, George Black, of Black Motors, would not oppose the Kelowna application. Only stipulation is that the race would not be held in conjunction with the Kelowna Regatta.

Vancouver power boat officials have been impressed with the amount of publicity that Kelowna gets in connection with local boat races and the regatta. They are confident that the previous race of the year would receive the recognition it deserves.

It is understood that if Kelowna's application is considered, an oval course would be suggested, running east and west parallel to the ferry lane, with the finishing line in front of the Aquatic grandstand.

It was estimated that close to 5,000 people lined the course at Deep Cove. Local officials believe an Okanagan race would draw about 3,000.

Although now officially disbanded, the individual members are far from inactive. The auxiliary was well represented at the Little League meeting and Les Edwards took the opportunity to make a strong suggestion that the ladies reform as an auxiliary to the Little League.

It is believed that Kiwanis would further develop and after Kiwanis Park on Edmonton avenue to accommodate the Little League. Edwards openly favored this choice of location as the present condition of the field would permit speedy completion. There is sufficient area at the park to expand accommodation as the years go by, such as the addition of bleachers and dressing rooms.

Many of the details surrounding the explosion of interest in Little League baseball are still up in the air, which is understandable in view of the short time the campaign has been going. The important thing is that the interest is there, the big hurdle has been crossed and as wheels turn within wheels in the weeks and months ahead it seems a certainty that the fifty-third Little League of Canada will be here in Penticton.

The average game score for Athletics during the OMBL season was 5.6 runs for Penticton and 4.7 for the opposing team. This was the best for-and-against average in the league.

Bud Russell, long time centre fielder of the Athletics, led his club in extra base hits during the OMBL season. Bud hammered out two homers, two triples and four doubles to edge out Bill Raptis by one base.

They Pitched The A's To Victory

The record of the five-man pitching staff of the pennant winning Athletics has been tallied up by the league secretary and gives a relatively accurate picture of who did what. Here are the facts:

	INN	H	W	SO	R	ER	HP	W	L
Ted Bowsfield	57	24	20	89	13	8	3	5	1
Wendel Clifton	37	19	13	53	17	5	1	2	1
Les Edwards	20	9	21	17	9	1	2	4	1
George Getz	31	32	9	21	19	2	2	2	2
Larry Jordan	18	22	6	8	9	4	0	0	1

## FINAL STATISTICS GIVEN ON A'S BATTING RECORD

Although Wendel Clifton started late in the season and has only been to bat 16 times, he has given proof that here is a hurler who can also handle the timber. He tops the Athletics with an average of .438.

Bill "the Rapper" Raptis still remains a bulwark of Athletics power. He has played 53 games this season and has a batting average of .411. Bill has 17 runs to his credit — two more than his closest rival, Bud Russell — and his 11 runs batted in is high for the club.

Wally Janicki, OMBL secretary, provided the following tabulation of statistics which include all games up to and including the final game in the schedule but does not include tie-breaking games.

	AB	H	Ave.	RR	BI	PO	E	SB	SO	HR
Wendel Clifton	16	7	.438	2	2	2	3	—	—	—
Bill Raptis	56	23	.411	17	11	13	3	3	5	2

## Seattle Wins

(Continued from Page 2).

bet who would win, although the young Vancouver club had a 3-2 margin.

Princeton slipped in the seventh when Vancouver tallied two runs off of two walks and two errors but the eighth inning was something nobody likes to talk about. Vancouver sent 16 batters to the plate in that frame to blast Princeton all over the park.

Princeton tried everything in their dugout that remotely resembled a pitcher but none of the three lads that did duty on the mound in that inning could stop the flood until Vancouver had rung up eleven runs from seven hits and one error. It took 35 minutes to play the eighth inning and following the game umpire Alf McDonald sat the hours and 45 minutes for this opening game was the longest he had ever officiated.

Vancouver added four more runs to their bulging score in the ninth. Princeton, still digging hard, despite the hopelessly deep hole they were in, pushed across three runs in the last half of the ninth to finish off the lopsided count 20-5.

Vancouver added four more runs to their bulging score in the ninth. Princeton, still digging hard, despite the hopelessly deep hole they were in, pushed across three runs in the last half of the ninth to finish off the lopsided count 20-5.

## Vernon Site Of Interior Hoop Meet Sept. 13

A much enlarged basketball picture is in the offing for the Interior this season, according to plans of Howard Thornton, of Vernon, president of the Interior Basketball Association.

Mr. Thornton has sent invitations to 21 centres where the hoop game is active to send representatives to the association's annual organization meeting set for Vernon, September 13.

At least seven southern Interior centres are expected to floor senior "B" entries this season, including Princeton, Penticton, Summerland, Kelowna, Vernon, Kamloops and Revelstoke.

Senior "C" teams from towns of less than 1,500 population, are anticipated from Merritt, Oliver, Keremosis, Rutland, Lumby, Armstrong, Enderby and Salmon Arm in the south while a new northern zone, comprising Ashcroft, Clinton, Lillooet, Bralorne, Williams Lake and Quesnel, have been invited to the meeting.

## Good Deeds you may have done unknowingly

1. Here's a new home you may have helped provide for one of your neighbours — if you are a life insurance policyholder. For part of your premium money is invested by your life insurance company in ways that provide funds for building not only houses, but schools, roads, power plants, other developments.

2. Perhaps, too, you can take a small part of the credit for Tommy's recovery from a serious illness. Medical science is always learning more, through research, about how to combat disease. And you may be providing some of the funds that life insurance companies contribute to such vital research projects.

3. Ever help a man get a job? You may have — unknowingly. For life insurance money, invested in ways that enable an industry to expand, has played an important part in providing new jobs for many workers — including, perhaps, yourself.

4. As a life insurance policyholder, you do all your fellow-citizens a service. For the financial security you've provided for your family reduces the chance of their ever becoming a burden to others. The more protection you own, the more that chance is reduced.

In all these ways, millions of life insurance policyholders are building security for their future — and helping to make Canada a better land to live in.

AT YOUR SERVICE — A trained life underwriter, representing one of the more than 50 Canadian, British and United States life insurance companies in Canada, will help you plan for your family's security and your own needs in later years. Rely on him!

### DOGGY DEEP FREEZE

Robert Winter, minister of resources and development, told a Montreal gathering that in the Yukon, mastodons are still found in the permanently frozen ground. These prehistoric animals are sometimes in such good condition that they have been used for dog food, he said.

First diesel-electric passenger engines were used in 1934.

**REFUGEE CHILDREN** at Masan, Korea, clamber aboard a pile of CARE food and textile packages. CARE-Canada is conducting a nation-wide campaign for contributions for CARE parcels for needy Korean war victims. Many children in Korea have to be turned away from the orphanages because there is no room or food for them. CARE parcels often mean the difference between life and death for the cold and the hungry, the sick and wounded. Canadians wishing to help through CARE may do so simply by mailing a cheque or money order to CARE-for-Korea, 73 Albert Street, Ottawa. CARE has \$10 parcels of food, underwear, cotton, knitting wool and a \$7 blanket stockpiled in Korea now ready for immediate delivery. All donations for relief in Korea are deductible from taxable income.

### Chameleon Star Of Moody Science Film Showing Here September 21

A queer little fellow who sports a multi-colored wardrobe, a built-in lasso tongue and ball turret eyes starts in a new science film just released, proving that nature had it first. He is a chameleon, and you'll meet him in the "Moody Institute of Science" film, "Prior Claim," which will be premiered at Penticton United Church at 8 p.m., Sept. 21. The showing is sponsored by the Penticton Ministerial Association.

With refreshing originality and persistent curiosity the camera also ferrets out such intriguing facts of nature as the elephant seal which suffers from stomach ulcers, a snake equipped with its own "sniper-scope" or thermal receptors, a diving spider which makes its own diving bell, a bird which flies like a helicopter.

"Prior Claim" points up such quaint and fascinating natural phenomena. But it is being discovered that many of nature's devices operate on the same principle as the great electronic advances of our time. Thus even in the inventions and developments which characterize this modern age, man does not have the prior claim. Wherever he may delve he finds that God was there first. He created it.

"Prior Claim," which runs about 50 minutes, is in full color and is accompanied by intelligent commentary. It is the sixth in the "Sermons from Science" series of gospel-science films produced by Dr. Irwin A. Moon of the Moody Institute of Science, Los Angeles, a branch of Moody Bible Institute, Chicago. These films, with sound tracks in 14 languages, are shown all over the world.

When temperature reaches 120 degrees in the Sahara Desert, the sand itself may be as hot as 150 degrees.

### KEREMEOS

**KEREMEOS** — The local A.C. Cadets' Association, assisted by the Century Club entertained members and businessmen last Tuesday evening in honor of F. W. Stephens, who recently resigned his post as postmaster to enter business for himself at the coast. Mr. Stephens was presented with a gift, a token of appreciation of his work in the community and an enjoyable evening was spent by those present. Miss Freida Liddicoat, assistant postmaster, will act as postmaster until a permanent appointment is made. Mrs. M. Kirkpatrick is assisting her temporarily.

Mrs. Audrey Tweedle, Vancouver, was a guest of Mr. and Mrs. Ross Innis last week; Mrs. Tweedle reports that her little daughter, Maureen, a victim of polio in 1952, is progressing most favorably with treatment.

Mr. and Mrs. George Arnison and children holidayed at the coast last week.

Mrs. Dick Nell and little sons are visitors at the home of Mrs. Nell's mother, Mrs. A. E. Etches.

Maureen and Bob Callaghan, daughter and son of Mr. and Mrs. Gordon Callaghan, New Westminster, were visitors in town last week while visiting the interior. They are grandchildren of the late Mr. and Mrs. James Callaghan, who at one time owned the property now owned by Fred Croker. Their father was engaged in fruit ranching following the first Great War.

George Ross, superintendent of the Boys' and Girls' Industrial School at Port Coquitlam and Mrs. Ross are visitors here for a week.

Mrs. W. G. Mattice is a patient in Penticton Hospital.

Mrs. J. H. East, Mrs. F. Liddicoat, Miss J. Dugdale, Mrs. V. Quaedvlieg and Mrs. T. W. Kitchen attended the enjoyable tour of the Summerland Experimental Station and the banquet which followed in the IOOF Hall, both in honor of the 24 delegates to the recent ACWW Conference in Toronto.

The visitors all were very enthusiastic over their first visit to British Columbia; Mrs. East, past president of BCWV, was able to renew many of the friendships made when she attended the sixth Triennial in Copenhagen in 1950.

The 1953 waterfowl survey showed 34 percent more waterfowl remained in Canada last winter than the winter before.

### BELSAW

The World's Largest Selling Light Portable Sawmill

Make big profits cutting lumber with a Belsaw portable sawmill for local yards, neighbours or for your own use. Belsaw is simple to set up and operate—even beginners get good results.

Fast mechanical feed, positive top dogs, steel construction and built-in safety features make the Belsaw portable sawmill the leader in its field.

### KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well, get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

B.C. OWNED AND OPERATED

## CREDIT MEN CONVENE HERE NEXT WEEK

Annual conference of the Associated Credit Bureaus of British Columbia is to be held in Penticton on Monday and Tuesday, Credit bureau managers and their senior executives from all parts of B.C. will congregate to discuss current credit trends and operational problems. There are at present about 30 credit bureaus operating throughout the province, and with the ever increasing use of consumer credit, problems of credit control are becoming more acute.

There is, too, a greater demand for the services of the collection departments, operating in conjunction with the credit bureaus, with the result that the annual conferences are becoming workshops, designed to improve operating procedure to strengthen both the reporting and collection arms of the credit bureau operation.

J. J. Van Winkelaar, conference chairman, states that invitations have gone out to Alberta bureau operators as well, and it is expected that there will be representatives from both this neighboring province and from bureaus in the State of Washington, USA. Visitors are expected to arrive on Sunday, September 12, and a "get acquainted" buffet supper will be held on board the SS Sicamous. The Hotel Prince Charles has been chosen as the conference headquarters.

## Osoyoos Growers Air Grievances Before MLA

OSOYOOS — At a meeting held in the Osoyoos Community Centre, September 4, at the request of Frank Richter MLA to enable him to acquaint himself with the problems of the district some 30 people were present. Most of the evening was taken up with the airing of grievances against the present vegetable marketing board. A request was made to the government over a year ago to have the board investigated and, so far, nothing had been done it was claimed.

Mr. Richter promised to give the matter all the consideration it deserved and to acquaint the present government with the various problems presented. As a further point in the marketing problem, Mr. Cyles pointed out that the completion of the southern trans-provincial highway would open more markets in areas served by transportation other than the railways. Mr. Cyles complimented the present government on its highway program and the progress that was being made, but felt that the completion of the highway to Alberta would give the growers an added outlet for their produce.

Ports of New York State handled some \$10 billion in goods during 1952. This represents over two-fifths of U.S. foreign trade by water, rail and air.

## September 13-19 "Better Parenthood Week" In Province

"Better Parenthood Week" will be observed throughout the province during the week of September 13 to 19.

The British Columbia Parent-Teacher Federation is sponsoring the week and during the campaign will make an appeal to all parents with children in school to become members of the federation by joining their local P-T-A organizations.

The objectives of "Better Parenthood Week" are fourfold. Foremost is the desire to make mothers and fathers aware of the importance of using the best possible methods in the training and care of their children and to acquaint them with the many sources of help and information available to them in handling their family problems.

Secondly the special week is designed to encourage the formation of groups for study and discussion of child rearing problems.

The third objective is to promote more co-operative understanding between parents and teachers, and between the school and the community at large.

Finally "Better Parenthood Week" is being observed to lend active support to all community efforts for better schools, child health, recreational facilities, vocational guidance and the prevention of juvenile delinquency. Provincial chairman for the observance is Mrs. Fred A. Jones.

## Funeral Services For W. R. Henley

Funeral services were held yesterday afternoon from the Penticton Funeral Chapel for William Richard Henley, 71, who passed away in the Penticton Hospital on Saturday, Rev. A. R. Eagles officiated at the rites.

Born in Kent, England, Mr. Henley is well-known in this district having served with the provincial police force in Keremeos and later in this city. He was active in Branch 40, Canadian Legion, acting as secretary for some time.

Surviving are his wife, Sadie; a son, Eric David, presently serving with the armed forces in Korea; two daughters, Patricia Lillian Philomena, and Lydia Olive Nolan, Penticton, and four grandchildren. Committal was in the Field of Honor, Lakeview Cemetery.

That point in the earth's orbit which is most distant from the sun, 94,560,000 miles, is called the "aphelion".

## Can't Hit A Barn?

Whether a tyro or a professional, you'll welcome competent advice on our complete stock of equipment and supplies for all types of hunting and camping trips.

**RIFLES**—Be assured of a style and calibre of gun best suited to you and the type of shooting you're liable to do.

**SHOTGUNS**—Drop in and chat with our experienced staff and they'll be glad to offer advice and suggestions for a full bag of game birds.

**BOWS AND ARROWS**—All styles are continually in stock including hunting bows and arrows. Your enquiries about this fast growing sport are always welcome.

**KNIVES AND HATCHETS**—Whether you want a skinning knife for one particular job or an all purpose hatchet or axe you'll find you need here.

**STOVES AND CAMP UTENSILS**—Cooking for one or a whole gang? Tell us your requirements and you're assured of the correct equipment to help you eat regularly and well.

**CARTRIDGE BELTS AND VESTS**—How many shells should you carry, what type, there's a vest or belt for each one of you.

**SHELLS AND CLEANING KITS**—What type of shell, velocity, range... is best for your favorite game or hunting ground. We'll gladly help you decide and show you cleaning kits to keep your guns in top shape all year.

**SLEEPING BAGS**—Become very important on cold wet nights. Be sure to discuss the best type for your particular needs for a good night's rest.

**PACK BOARDS AND HAVERSACKS**—Large man, small load or small man, large load. It makes a difference if your pack equipment is fitted correctly. We're happy to spend some time on this important problem.

In short... be certain of a safe, comfortable and successful trip by taking advantage of our personalized and fitted equipment. There is no extra charge and you'll find our prices very reasonable.

## Canneries Suffer In US Bartlett Pear Price War

WENATCHEE — Canneries were getting few signed contracts from growers on Bartlett pears last week, as the tug-of-war over \$60 per ton prices continued unabated.

Pickings increased in tempo, however, with growers delivering their fruit to the warehouses for storage, unsold. In Yakima, full-page newspaper advertisements appeared, advising growers not to sell at the \$60 price.

A headline on the ad asked:

"Why Should the Yakima Valley Lose \$1,000,000?"

Yakima producers declared the

canneries' offer was unfair and

discriminatory after prices up

to \$65 per ton had been paid for

California fruit. The \$65 price

was in Lake County, with other

districts receiving from \$68 to

\$77.50 per ton.

Bankers, through the Yakima

Bank Clearing House As-

sociation, wired major can-

neries supporting the growers' stand

and urging that the \$60

per ton offer be reconsidered.

Fruitmen said here very few

contracts have been signed and

the Bartletts are being stored in

the warehouses. Under normal

conditions, the pears are gener-

ally aged about 15 days before

they are sent to the canneries for

processing.

"It is possible that the state-

mate, between the growers and

canneries, could go on for that 15-

day period," one local fruitman

commented. "But after the aging

process has been completed, the

fruit has to be canned almost im-

mediately."

Members of the Bartlett Pear

Producers Association in Yakima

took to newspaper advertise-

ments after an angry meeting

recommended an appeal to grow-

ers not to sell their crop at fig-

ures below those given Califor-

nia growers.

The association also sent the

following telegram to the home

offices of the three major can-

ning companies — California

Pac. Libby, McNeill and Libby,

and Hunt:

"Yakima valley pear growers

regard \$60 per ton price offer as

discrimination against Wash-

ington pear producers and urge

your company to equal price

paid California producers for

comparable quality fruit. Will

you take such action?"

To processors other than the

"big three," the Yakima associa-

tion sent this telegram:

"Yakima Valley Bartlett pear

growers enlist your support in

securing price for Washington

pears equal to California prices

for comparable fruit."

In the mass meeting, the asso-

ciation also set up a committee

to organize a permanent bargain-

ing group similar to one which

negotiated prices for California

growers this season.

OLIVER — Penticton, Summer-

land and Kelowna delegates to

the Okanagan Valley Municipal

Association, meeting here recent-

ly, met in closed session to dis-

cuss the possibilities of unified

bargaining in negotiating with

unions. Upshot of the discussion

was a decision to seek the col-

lective opinion of the affected

councils before pursuing the

matter further.

Canada's population increase in

twelve months preceding March

1, 1953, was 376,000 bringing the

total population at that date to

14,692,000.

## Naramata Locals

Mr. and Mrs. L. E. Smith accompanied by Mrs. Edith Langgudde motored to Vancouver over the holiday weekend to visit the former couple's son-in-law and daughter, Mr. and Mrs. Keith Colquhoun.

Among those visiting at the home of Mr. and Mrs. W. C. Kines were their daughter, Miss Mildred Kines, of Chilliwack, who spent the weekend here, and their son and daughter-in-law, Mr. and Mrs. A. G. Kines, and small son, Gary, of Vancouver, who returned to the coast today following a ten day holiday stay in Naramata.

Miss Helen McDougall, secretary at the Christian Leadership Training School, is leaving Naramata tomorrow to holiday for the next month at her home in Ormstown, Quebec.

Registration for the Naramata Kindergarten, which is scheduled to commence on September 14, will take place Friday at 2:30 p.m. in the United Church. The school for children in the four to six year age group will be conducted by Mrs. Kathleen Coulson week days from Monday to Friday and will be held in the church parlors. Class hours are from 9 to 12 a.m. Music, games, story hours and recreational periods will be included in the curriculum of the kindergarten.

Miss Beth Bingham, a student graduate of the 1953 term of the Leadership Training School, left on Sunday for Flores Island where she will teach in the Indian Village of Ahusat. Miss Bingham's home is in Waterloo, Ontario.

Current visitors at the home of Mr. and Mrs. Al. Ward are the former's brother and sister-in-law, Mr. and Mrs. Garnet Ward, and family, of Calgary, and his brother-in-law and sister, Mr. and Mrs. Maurice Turcot, and family, from Vancouver.

Mr. and Mrs. Frank Luxton and Howard Luxton left on Saturday for Forest Grove where the latter will become the teacher at the elementary school.

Among those accompanying the Naramata Cricket team to Trail for the Saturday match were Mr. and Mrs. Kenneth McKay, Mr. and Mrs. Ian McKay, Mrs. A. L. Day, all local cricket enthusiasts, and Mrs. John Glass, of Penticton.

Russell Tousaw, a student for the past year at the Christian Leadership Training School, left Naramata on Sunday for his home in Montreal. Mr. Tousaw will resume his studies at Queen's University this fall.

More than two hundred were in residence at the Christian Leadership Training School when the annual round-up for the British Columbia AOTS Clubs (As One That Serves) was held over the Labor Day weekend in Naramata. Among the many distinguished guests present were G. Brydon McCrea, of Winnipeg, president of the AOTS National Council, and Rev. Gerald B. Switzer, Ph.D., minister of Central United Church, Calgary, who gave the main address at the Sunday evening outdoor meeting. Held at the lakeside chapel near the LTS the meeting was attended by a record crowd of over three hundred, the largest number to gather for any school sponsored function.

Owing to the large number registered at the school for the round-up all meetings and meals were held outdoors over the weekend.

Among the Naramata Women's Institute members in Summerland on Friday to greet the delegation of Associated Country Women of the World, who were touring western Canada following the recent conference held in Toronto, were Mrs. Donald Salt, president; Mrs. W. O. June, secretary; Mrs. M. A. Gawne, Mrs. A. G. Stanforth, Mrs. C. C. Atkins, Mrs. H. A. Mitchell, Mrs. J. A. Noyes, Mrs. Ernest Sammet and Mrs. Philip Workman.

Mrs. Mary Agnew, of San Francisco, was a weekend visitor here with her father, William Nicol, who is a patient in the Penticton Hospital.

Mrs. Walter Greenwood, Miss Shirley Wilson and Donale Ward spent the Labor Day weekend visiting in Vancouver.

THE BANKS SERVING YOUR COMMUNITY

# Let's Take The Mystery Out Of Insurance

(1st of a Series)  
THE PREMIUM

The premium is the money you pay to your insurance company each year. In return the company takes over your worries when you smash up your car or someone elses.

Biggest job of the men who work for you in the insurance industry is how to cut insurance costs so that it will take fewer and fewer dollars to buy the protection you need.

But the money it takes to pay for that crumpled fender or for injuries is only part of the cost of doing business.

Part of each dollar you pay into the company goes out again in taxes, which in turn helps to reduce your own taxes since governments must get money from some place. A small slice of your dollar goes into the wages and salaries of people who must be employed to look after your business and that of thousands of other people who rely on insurance companies for help when they get into an accident.

Some more of your dollar goes out in a commission to the agent, the man who looks after your insurance needs. And items such as heat, rent, equipment and other expenses eat up most of the balance.

Your insurance company can control some of the costs and is constantly working to keep them as low as possible in the face of constantly rising price trends.

But the company cannot control accidents. If it could, none would happen. It cannot foresee how many damage or liability claims it may have to pay in any year. The best it can do is to call upon past experience for an estimate of possible accidents in the future and then keep its fingers crossed and hope it has not guessed wrong.

A Mutual Company, such as the Wawanesa Mutual Company, is in effect a co-operative arrangement whereby you join with many other people to provide insurance protection for yourself and other members of the group.

The money paid by each individual goes into a common pool. Out of this fund, made up from the premiums of thousands of persons comes the money to tide you over the rough spots if you have an accident.

The company must keep enough money in the pool to assure you this protection. This is called reserves and the government is very strict in requiring that the reserves are sufficient to meet all claims.

Out of each dollar you paid in premiums to the Wawanesa in 1952 the company paid out \$4.59 cents in claims. The total expenses of operating the business took 37.88 cents and they put 7.53 cents into reserves so that each policyholder would be assured of having his claims paid to the full amount of the policy.

## QUEEN HONORARY HEAD OF CIVIL DEFENCE CORPS

The following is the text of United Kingdom Civil Defence circular received recently by Colonel J. H. Horn, South Okanagan civil defence co-ordinator:

"Her Majesty the Queen has been graciously pleased to assume the title of Head of the Civil Defence Corps. The Secretary of State has no doubt that this Royal recognition of the standing and importance of the Civil Defence Corps will give the greatest satisfaction both to the local authorities responsible for its administration and to those who serve in it."

## Our Town By Jack Scott

**WOODSHED COURT**  
I once acted as ghost-writer for a sharply intelligent young man who'd had a rather spectacular career in crime and who, having honestly gone straight, had consented to tell all in a magazine article.

He theorized at length about what makes a criminal, particularly the all-important influence of environment. But he said one specific thing that's remained in my mind.

"Most kids never become professionals until they've been in court for the first time," he said. "It's like getting a college degree. I've seen some of these ratty little hoodlums who run in gangs. They get up there on trial. All of a sudden they're important, they're big shots."

"The court proceedings — and the sentence itself — gives the kid a sense of drama about himself. It dignifies him, gives him a new stature in the eyes of the gang and in his own estimation. He's the centre of attraction, which he's never been in his life before. He's given all the protection of the law and he figures he's getting away with something."

I've been reminded of this by the action last week of a magistrate who was faced with some junior-type bums and reacted rather magnificently.

One of the youths, who affected long greasy Victor Mature-type hair locks, was promptly sent out to a barber shop to have his hair cut before the magistrate would proceed with his case. Another, in black shirt and "draped" pants, convicted of carrying knuckle-dusters got a little talking to. "Anyone carrying these things," said the magistrate, with commendable bluntness, "is a punk and a coward." He slapped on the maximum fine of \$100.

It's true that this man will be a vastly respected gentleman in the juvenile delinquency set and that some of the swagger of at least two of its members will be looking just a little silly.

I hasten to interject at this point my conviction that criminals are made, not born, and that no attention by a court, in itself, is any kind of solution.

These "punks" in the magistrate's apt language, are objects not only of scorn, but of some sympathy too. They're the products of the slums and of the inequalities of our system. (We wanted to show the rich kids that we were as good as they were.) My informant had said in describing the motive behind

Six to eight pounds of clothes makes a safe average washer load. Clothes won't wash clean if you overload. Check the amount recommended by your manufacturer.

so many car thefts by youngsters. They come from broken families. They run in the gangs or cluster at the pool room because there's no meaning to their home life. I fancy that the magistrate might agree, as most men on the bench agree, that like preventive medicine, crime can be tackled effectively only at the roots.

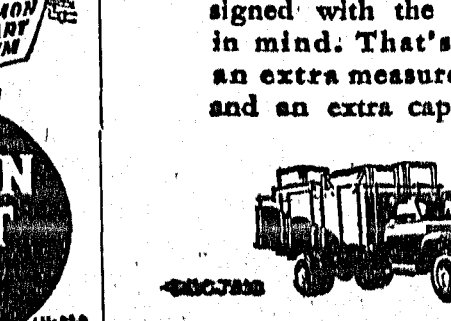

But that's a dream for the future. Meantime, the hoodlums, junior grade, are getting into plenty of trouble and being processed daily in the machinery of the courts.

The effectiveness of the magistrate's attitude, it seems to me, is that it is playing the game by the only rules these sad young people recognize.

They're a curious breed. The hair-style and the clothes, themselves, are merely a ludicrous attempt to bolster an immature ego. They strive to appear tough, self-reliant, worldly-wise and never realize that it's no more than a horrible comic effect.

The proceedings of a court case and being treated as men, either by a fine or a prison sentence, merely contributes another facet to the role they play.

A trip to the woodshed with a razor strap on a bare bottom would be far more suitable than the glamor of a prison cell.

## B.C. Interior Centres To Have TV Eventually

Smaller centres in B.C. Interior will eventually have television. J. A. Oulmet, general manager of CBC, promised in Vancouver last week.

Mr. Oulmet said a cross-country microwave is planned as soon as larger centres of population are served.

"We expect to be serving 70 percent of the Canadian public with television in two or three years," he declared.

"That's a higher percentage than American stations are reaching in the United States now."

"TV development in Canada has been very rapid and encouraging."

Quality of Vancouver programs, he said, will depend on talent available in B.C.

Mr. Oulmet was appointed general manager of the CBC six months ago. He is in Vancouver to see the corporation's radio and TV setup here first hand and meet the staff.

He is regarded as one of Canada's outstanding radio engineers and has been actively interested in TV since 1932.

## Lady-Of-The-Lake Float, Fittingly, Came By Barge

KELOWNA — Kelowna's Lady-of-the-Lake float, which appeared in the Penticton Peach Festival parade, was appropriately sent to the southern city on a barge. This was necessitated by the fact that the Fraser Black trailer was not designed for such road travel.

The Kelowna Board of Trade's portion of the cost was \$28. Appreciation was expressed by the board last week to Mr. Black for loaning the trailer, and to Alec Smith of Smith's Garage, who very kindly permitted the huge float to be stored in his premises.

Average life of a dog is between nine and 11 years. Many live to be between 15 and 18 and some rare ones have lived to be more than 20.

Snakes have no true voice. Having no vocal cords, their only voice is a hiss, caused by air rushing from the throat when the lungs are deflated.

## Next Year's Crop Returns Depend On Your Fall Fertilizing Program

This FALL, experienced growers will again set up the mineralized soil conditions which contribute so highly to the quality and the return of their next year's crop. In other words, "THE PACK OUT IS THE PAYOFF". If you have not used VITALERTH MINERALIZED FERTILIZER on your orchard... your supplier or the Vitalerth representative in your district has convincing information on the definite advantages of using Vitalerth in your fertilizing program. It is to your advantage to investigate today!

# The Women's World

## Needlecraft News

by Pauline Roy

**NOW THAT SUMMER** is over and the children back at school, it's time to think about making a few new things for the home. A pair of new curtains may be needed in one room, bedspread and drapes for a bedroom or new coverings for some of your spare time. You can have a modern, well-furnished home at very little cost if you make a few new accessories each year to give your home that well-dressed look.

**Importance of Colour**  
Trend in home decoration is towards simplicity in design and colour plays an important role. If you are planning to do over your home, or even one room, give some careful thought to choosing your new colours. A room furnished in dark tones is new, smart and cosy but should have a bright contrast to give it a lift. Lighter colours will give an appearance of space, and if your rooms are small, it may be better to use the pastel tones for your backgrounds and choose a darker shade for trimmings. Shades of red can be used to a room, greens give a cool, restful atmosphere and yellow is used for brightness. Pastels such as blue, aqua, rose, grey, beige and white are good basics that can be used everywhere. A good guide in choosing new colours for decorations is to pick ones that fit your own mood and personality. These will make you feel at ease in your own home and they will be sure to please others.

**Finishing Touches**  
Crocheted trimmings are fun to make and lend an air of elegance to your home. A versatile pinwheel motif is shown above in a matching set of round doilies in various sizes and as an edging for linen runners. If you would like to have a leaflet with directions for making this pattern, send a stamped, self-addressed envelope to the Needlework Department of this paper requesting ORIENTAL, Leaflet No. C S-185.

### Miscellaneous Shower Honors Naramata Nurse

**NARAMATA** — More than thirty-five guests were present at the miscellaneous bridal shower held in the Naramata community hall card room recently to honor Miss Dorothy Barber, R.N., who will be married at the coast later this month.

Gladioli and pink and white streamers decorated the pretty table on which were arranged the many attractive gifts presented to the popular bride-elect. She was also the recipient of a corsage from the guests with the presentation being made by Mrs. J. D. Reilly.

The honoree was assisted in opening the gaily wrapped gift packages by the Misses Shirley Wilson and Marion Greenwood after which a number of vocal selections were given by Miss Jean Stiffe with Mrs. W. A. Ritchie as piano accompanist. The serving of refreshments by the hostesses brought a very pleasant evening to a close.

### Presentation To Mrs. Stobie At Camp Sorec

The Explorers' group of the Penticton United Church presented a revised edition of the Bible to Mrs. Phyllis Stobie while attending the recent annual church camp session at Camp Sorec, Trout Creek Point, Summerland.

Mrs. Stobie, secretary of the Penticton church and camp director, left this city the end of the month to take up residence at the coast.

Mr. and Mrs. J. L. Hooper returned home recently after spending a holiday visit at the coast.

## Former Penticton School Teacher, Josephine Jantz Bride In Kelowna Nuptials

A former member of the Penticton elementary school teaching staff, Miss Josephine Jantz, of Kelowna, became the bride of Arnold James Barr in a double ring ceremony at First United Church, Kelowna, last week. Rev. R. S. Letch officiated for the daughter of Mr. and Mrs. A. Jantz, 764 Harvey avenue, Kelowna, and the son of Mr. and Mrs. S. Barr, of McLeod, Alberta, formerly of Kelowna.

Given in marriage by her father, the radiant bride chose a full-length gown of Chantilly lace over satin, her strapless satin bodice complemented by a Chantilly lace over-bodice which molded to a Peter Pan collar and the sleeves were long and lily-point. A redingote of lace was posed on her satin skirt, slightly on train, and her fingertip veil was of nylon net. She wore an aquamarine necklace, a gift of the groom, and her cascade bouquet was of pink roses and stephanotis centred by a mauve orchid. A halo of orange blossoms and stephanotis which held her mother's wedding veil, complemented her lovely attire.

Dainty boleros of Swiss lace, matching the strapless bodices of the attendants' gowns, featured roll collars and the full-length bouffant skirts of net were dotted with intricate lace flowers. Maid of honor was the bride's only sister, Miss Elaine Jantz, clad in yellow, while bridesmaids were Miss Dorothy Barr, sister of the groom, in mauve and Miss Shirley Pollard, in Nile green.

Sprays of gladioli to match their bouquets were worn in their hair. Baskets of gladioli provided the setting and soloist, Mrs. T. G. Crosby, sang "The Lord's Prayer" before the ceremony and "O Perfect Love" during the signing of the register.

Groomsmen were Russell J. Bennett while Dunc Whillies and Stan Miller ushered the guests. "Dr. J. H. Stapleton, of Penticton, proposed the toast to the bride at the reception for the 175 guests held at the Royal Anne Hotel. A toast to the attendants was given by the groomsmen.

For her daughter's wedding, Mrs. Jantz donned a suit of white Ottoman cord which she accessorized in red and she wore red carnations in her corsage. The groom's mother chose a frock of navy with pink accessories and her corsage was of pink carnations.

Pink gladioli encircled the three-tiered wedding cake centring the bride's table and white tapers stood on either side. Presiding at the urns were Mrs. S. I. Harris, Mrs. Earl Popham, aunt of the groom, Mrs. E. Sampert, aunt of the bride, and Mrs. J. H. Stapleton, Serviteurs were Misses Angie Zittorf, Denny Pollard, Margaret Koenig, Norma Grenke, Margaret Shugg, Margaret Sampert, Bernice Brooks, Mrs. C. Kauntzelman, Mrs. F. Nutter and Mrs. R. Vander Bough.

For travelling to Los Angeles, the bride chose a two-piece suit of powder blue silk which she accessorized with navy and she

### George McAvoy Doreen Wensley Wed In Edmonton

Rugged defenceman last year with the Penticton V's, George McAvoy, and Miss Doreen Wensley were principals in a wedding performed recently in Edmonton. Baskets of gladioli and sweet peas formed the setting in Eastwood United Church for the ceremony uniting the daughter of Mr. and Mrs. E. S. Wensley and the son of Mr. and Mrs. Arthur McAvoy, all of Edmonton.

Rev. Mr. March performed the double-ring ceremony. For her nuptials, the bride chose a gown of white nylon lace tulle over tulle embroidered with pearls. Her matching lace jacket was styled with lily point sleeves and she wore fingertip veil trimmed with pearls. Her only jewelry was a pearl necklace and she carried a bouquet of red roses.

Mr. Wensley gave his daughter in marriage. Miss Kay Hoyle was maid of honor wearing a yellow nylon gown. Identical copper gowns with matching hats were worn by the bridesmaids, Miss Gladys Wensley, sister of the bride, Miss Joan McLeod and Miss Jessie Heath. Each carried a bouquet of yellow chrysanthemums.

David Anderson was best man. Ushers were B. McAvoy, Frank Lylock and David Ashley. While the register was being signed, David Rock sang "Because."

At a reception for 150 guests, the bridal table was centred with a three-tiered wedding cake set in misty white tulle and flanked with lighted tapers and bouquets of pink and white sweet peas.

To receive, Mrs. Wensley wore a two-piece ensemble of beige silk complemented with turquoise accessories. A corsage of pink roses was pinned at her shoulder. Mrs. McAvoy, mother of the groom, chose an afternoon frock of beige silk with brown velvet trim. Her accessories were brown and her corsage was of yellow roses.

For a wedding trip to the United States, the bride donned a navy afternoon dress with white trim topped with a navy shorty coat. Her accessories were in lime green. Encorsage she wore gardenias.

## Bridal Shower Honors Recent Naramata Bride

**NARAMATA**—Mrs. John Sime (nee Grace Pound), was the honored guest at a miscellaneous shower held recently in Naramata Community hall.

Many lovely and practical gifts were presented to the honoree at the shower arranged under the sponsorship of the Women's Auxiliary and the Women's Federation to the Naramata United Church. Mrs. J. D. Reilly and Mrs. Frank Luxton, presidents of the two organizations, convened committees which made the party plans.

A huge umbrella decorated in bridal pink and white was the central background for the decorative motif of the affair. Mrs. Phillip Rounds and Mrs. Purvis were in charge of the attractive decorations. Mrs. R. A. McLaren presented a corsage to Miss Pound on behalf of the many guests present.

After the opening of the gaily wrapped packages a very pleasant social evening was highlighted by a quiz contest conducted by Miss Helen McDougall and by the showing of colored film taken by Miss Ruth Simpson while she was in England to attend the Coronation. A sing-song led by Miss Simpson and the serving of refreshments brought the evening to a close.

**SAVE 2 1/2¢ on every cupful you use!**

You save when you buy the big thrifty gallon jug instead of smaller bottles.

## Barbara Brents BUYS AND WHYS

**MONTREAL**—Never was a better jelly than this grape jelly. You can be certain it will be properly set, full of true, delicious grape flavor. It's made with CERTO FRUIT PECTIN, of course. And takes only 1/3 the time of the old-fashioned way of jelly and jam making. Besides giving up to 50% more jelly from the same amount of fruit. This recipe is just one of the many that are in the Certo booklet, under the label of each bottle of Certo.

**GRAPE JELLY**  
4 cups (2 lbs.) juice  
7 cups (3 lbs.) sugar  
1/2 bottle Certo

Stem about 1/2 of a 6-quart basket fully ripe grapes. Crush thoroughly. Add 1/2 cup water; bring to a boil, simmer, covered, 10 minutes. Place in jelly cloth or bag and squeeze out juice. Measure 4 cups into large saucepan. Add sugar to juice in saucepan and mix well. Place over high heat; bring to a boil, stirring constantly. At once stir in Certo. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Removing from heat, skim, pour quickly into glasses. Paraffin at once. Makes about 10 six-ounce glasses.

**Once Upon A Time**, my washing used to have a yellow tinge; I'd rub and rub, with no success. Then I remembered something from my school days—that seven colours combine to make white—and one of them is blue. So, of course, I said to myself, the answer to the problem of my yellow wash is blue. You know you must have your wash to get the clothes clean. Then simply put a dash of Blue in the water—to get them really white. Your sheets, shirts and table linens will fairly sparkle! What's more, Blue is kind to fine fabrics—won't harm them in the least. And it costs just a few pennies a month... a sound investment! Yes, for the whitest wash, use RECKITT'S BLUE.

**Have You Heard the good news?**  
... specially for you, if your feet have been bothering you lately. The answer is Phenylum, the new medication in BLUE-JAY Corn Plasters. Phenylum goes right down under your corn and helps push it out from underneath. The first really new medication for corns and calluses in over seventy years! In actual tests, Phenylum went to work 33% faster and worked 35% more surely than other leading remedies. Easy to see why folks with problem feet say it's the best news in years! I know you'll agree! Ask for Blue-Jays with Phenylum at your favourite drug counter today.

**There's Definitely A Difference**  
... your family will taste it right away. Pickles pickled in HEINZ WHITE VINEGAR are perfect. That's because crystal-clear Heinz White Vinegar is distilled, and used by the firm who makes pickles famous. It's full-bodied in flavour—uniform in strength... and it makes pickles, your family will rave about. So ask your grocer for the thrifty gallon jug of Heinz White Vinegar and, incidentally, if the free recipe booklet, "Pickling Success", isn't attached to the jug—write to me for yours... Barbara Brents, 4411 Crescent St., Montreal, P.Q.

**Right Now It's Top-Of-The-Year For Salads**  
... vegetables and fruits are sun-ripened and in full harvest! Rich in food values... attractive to serve... just right for back-to-school appetites. And... they're always!—serve them with MIRACLE WHIP Salad Dressing. No other Salad Dressing has just that flavor—an exclusive with Kraft. No other dressing blends so smoothly with the most tender fruits or vegetables with sea-food—cold meats—chicken. It blends so smoothly or crowns them with such a whirl of pure-gold delight. Mmmmm! Serve your family salads every day with Miracle Whip, of course.

**For Most People, Summer Holidays Are Over.** Here's to the next one! And it's only human to want the next one to be bigger and better in every way. But, alas, it's also human to put off the regular saving needed to make it so. Then a mad scramble begins. You borrow from this and you borrow from that. You trim down your dreams and pare down your hopes. You switch targets and destinations. You make do. But it's only second best and you know it. You kick yourself for not taking the necessary measures, and it all amounts to, spoil—just a little bit—the vacation you finally can afford. Well—put your foot down on that part of the dream. Put things off. Start saving now for a bigger and better vacation next year. Open an account at the BANK OF MONTREAL right away and put a little aside each month, regularly.

**Excellent News!**—Here's a recipe for glorious Golden Mustard Pickles... a tangy mustard pickle your family will love the year 'round... so make plenty! First of all, be sure you have the following: COLMAN'S DRY MUSTARD, HEINZ WHITE PICKLING VINEGAR, WINDSOR CORN SALAD DRESSING. And to seal in the goodness of the pickles once they're done... PAROWAX.

**Golden Mustard Pickles**  
1 quart salt water  
2 tablespoons turmeric  
1 quart sherrins  
1/2 cup Colman's Dry Mustard  
1 quart Heinz White Pickling Vinegar  
2 1/2 cups granulated sugar

Prepare vegetables, peel onions, cut sherrins and cauliflower, put into a cold brine (1/2 cup of Windsor Coarse Pickling Salt to 1 quart of water), add a pinch of alum and allow to stand overnight. Drain vegetables next morning and prepare a sauce of the other ingredients, first mixing the Colman's Dry Mustard with a thin paste of a little of the cold Heinz White Pickling Vinegar. Combine together and cook until thick, then add vegetables and cook slowly about 15 minutes. Bottle and seal with sterilized Parowax for all-year protection. Yield: makes about 4 quarts.

## Baking's Easier, Speedier.

with Wonderful New Fast Rising Dry Yeast!

**CINNAMON BUNS**  
Measure into large bowl, 1 c. lukewarm water, 2 tps. granulated sugar; stir until sugar is dissolved. Sprinkle with 2 envelopes Fleischmann's Fast Rising Dry Yeast. Let stand 10 min., THEN stir well. Scald 1 c. milk and stir in 1/2 c. granulated sugar, 1/4 tsp. salt, 6 tbs. shortening and 1/2 c. lukewarm water. Add to yeast mixture and stir in 2 well-beaten eggs. Stir in 3 c. once-sifted bread flour; beat until smooth. Work in 3 c. more once-sifted bread flour. Knead until smooth and elastic; place in greased bowl; brush top with melted butter; shorten. Cover and let in warm place, free from draft, till rise until doubled in bulk. While dough is rising, combine 1/2 c. brown sugar (lightly pressed down), 3 tps. ground cinnamon, 1 c. washed and dried raisins, 1/2 cup. Punch down dough and divide into 2 equal portions; form into smooth balls. Roll each piece into an oblong 1/2" thick and 16" long; loosen dough. Brush with melted butter or margarine. Sprinkle with raisin mixture. Beginning at a long edge, roll up; piece loosely, like a jelly roll. Cut into 1" slices. Place just touching each other, a cut-side up, in greased round layer-cake pans for other shallow pans. Grease tops. Cover and let rise until doubled in bulk. Bake in moderate oven, 350°-375° minutes. Serve hot, or reheated!

• No more taking chances with perishable yeast cakes that have lost their leavening power! New Fleischmann's Fast Rising Dry Yeast keeps full strength and active right till the moment you use it. Needs NO refrigeration—keeps safely in your cupboard. Try it; marvellous results in your next baking.

**Order a month's supply!**

### Rev. S. McGladdery Appointed Moderator At Church Session

Rev. Samuel McGladdery, B.A., B.D., pastor of St. Andrew's Presbyterian Church, of this city, was appointed moderator of the Kamloops-Okanagan Presbytery at the session held recently in Vernon. The appointment was unique in the fact that Mr. McGladdery, recently of Belfast, Ireland, was just received into the ministry in Canada at the general conference of the Presbyterian Church held in Toronto in June of this year. The local pastor and Mrs. McGladdery with their family came to Penticton directly from Ireland earlier this year. Both have taken a very active interest in the various duties of St. Andrew's parish since arriving here.

# SHELTERING ARMS

... await the homeless

Whenever there is Distress ... there you will find  
the understanding heart ... the human touch  
of the SALVATION ARMY!

## GIVE GENEROUSLY

71 Years  
In Canada

Persons who have not been approached can make arrangements to have donations collected by telephoning 5624.

During its 30 years of operation in this city the Salvation Army has built up a fine record of service in this district.

It has been foremost in rendering social service to indigent families by making gifts of food and clothing. Food and shelter has been freely given to the homeless.

Local Objective \$2400.00

Chairman of Drive: Mr. Frank Christian

## Windows Play Important Role In Building Plans

Windows play a more and more important part in today's building plans. This is influenced to some extent by the mode of living known as the "California Way of Life" — a way that correlates outdoor and indoor living.

Too, picture windows give an added look of elegance to even the smallest houses. But today's builders are using many types of windows: the double-hung windows, French-type windows, bay, dormer, casement and sliding windows more than ever before.

To dress these windows in a becoming fashion, without too much expense, is the ardent desire of every owner. Manufacturers and fabric designers are keeping step with milady's changing tastes in window curtains.

Ready-made curtains come in many styles... ruffled drapes, in cottage sets or in the newer, three-tiered ensembles. Many are ruffled, treated to a gay combination of colors or trimmed with ball-fringe or other edgings.

Muslin launders beautifully, comes out of soap suds looking fresh and bright and with its shape quite intact.

**MORE TAILORED AIR**  
For large windows demanding a more tailored air, muslin may be dyed any color of the rainbow and hung on traverse rods... a simple, easy-to-make but very effective drapery. One thing to remember in using inexpensive fabrics — it is best used lavishly... if a yard does the trick, then by all means, use two or even three yards for that elegant look.

Lacking the body of taffeta or heavy silk, muslin behaves just as well as expensive drapery material if it is extremely full. Unbleached muslin comes in widths up to 108 inches, which makes for easy and accurate measuring.

Remember, there are lots of wonderful cottons to choose from for your new curtains. Go farm-house style with bright calicoes or crisp white muslin. Be modern with burlap, denim and ticking. Be frankly pretty with dainty, white ruffles. But be bold in your color choice — try plaids, stripes and bright flowers.

Remember, too, if you're short

on dollars, you can still be long on imagination. You'll find that it pays off in an added sparkle, a completely individual look, to your windows.

That wonderful, colorful fabric, ticking, makes an excellent outdoor windscreen. Overlap edges and seam for large expanses. You'll find that enough for a 6 by 12-foot screen costs only about \$6.00.

## Here's How To Fix Vibrating, Creaky Floors

A floor that is well made is stiff and without vibration or creaks. Vibration and lack of stiffness in a floor may be due to undersize joists, no bridging or bridging that is poorly fitted or loose, too little support for basement beams, shrinkage of the beams or of the blocking, rotting of the posts, or settlement of the foundations of the posts.

To correct this, jack up the beams slowly until they are straight and level. Use several jacks if they are available, and do not try to raise the beam the whole distance at one time. Raising it a few turns a day permits the whole structure to return gradually to its proper position with the least cracking of plaster.

Install new posts on poured concrete foundations about two feet square and one foot thick. Posts should be at least six by six inch or of three to four inch steel pipe with steep cap and base.

**INSPECT JOISTS**  
Inspect the joists to see why they have rotted or shrunk so that the top of the joists are even with the top of the girders. Where the joists have sagged at the centre it may be necessary to install new joists between the old ones to stiffen the floor and hold it in line.

If additional posts do not interfere with the use of the basement, a timber about six by six inches, supported on posts, may be placed crosswise under the joists near the centre of the span.

When a ceiling covers the joists, it should be broken into, or the flooring above taken up, to learn the condition of the bridging or other reason for lack of stiffness.

## HOW TO PAINT

Outside house paint should be brushed on in relatively thin coats. A thick coat has the tendency to dry on the surface while the underneath remains wet for a longer time. This causes checking, which results in small cracks forming up and down and across the finished surface, marring the beauty of the finished job.

When painting the windows apply a coat of either paint or raw linseed oil to the bottom of the sash. This prevents absorption of water. When coating porch railings and spindles be sure to brush the paint well into the joints and cracks and underneath the rails to make these areas as water-tight as possible.

**FURNITURE LEGS MARK**  
Make a resilient floor covering — cork, rubber, linoleum, asphalt, plastic — last longer by protecting against indentations from furniture legs. Glass or rubber protectors should be applied to the later.

**YOU CAN CLEAN** crevices in carved furniture by using an orange-wood stick or skewer wrapped in cotton.

## Oriental Carpets Best Combined With Colored Texture Wallpaper

By FRANCIS JAMES

During my many talks to homemakers I try to show all types of color schemes for all types of rooms. We go through old houses and new modern homes looking at the various possible rooms and their new furnishings. But I have sadly neglected one important consideration — This is the oriental or oriental-type of carpet.

Now let's have a chat about this question of oriental carpets. Many homemakers have, and enjoy them, want to keep them but are at a loss to know how to combine modern furnishings with these carpets.

Well, it can be a problem if you are like some who wish to employ the focal wall treatment with a modern colorful patterned wallpaper. The oriental carpet cannot be combined with our modern patterns either in wallpapers or in fabrics. They require a textured wallpaper treatment.

You will find a wide assortment of colored wallpapers in interesting weaves. These will be your answer to the wall treatment. Let your oriental carpet continue to be the main pattern in the room and use with it a soft, colored wallpaper. Use a soft, greenish-blue, grass cloth wallpaper or a rose pebble surfaced wallpaper. You can create a focal wall by papering one wall in blue, probably the fireplace wall, and add a soft rose colored paper to the other three walls.

If you wish, another pattern can be introduced into your room in the form of a striped fabric or wallpaper. It should be of a formal dignified type to harmonize with the dignity of your oriental carpet. Perhaps a striped fabric for draperies would add the right touch.

For those of you who own oriental carpets but do not long for care for the pattern, consult the carpet cleaners and dyes in your community. Many carpets can be stripped of the color and re-dyed in one solid color. This may solve your problem. Then you can use that beautiful patterned wallpaper in your home and exchange traditional for modern furnishings.

A mixture of two parts ammonia and one part turpentine will soften old paint or varnish so it can be scraped off easily.

### Armstrong School Employees Union Threatens Strike

VERNON — Members of the federal school employees union (local 323) at Armstrong are seeking department of labor permission to hold a government supervised strike vote, following refusal of school trustees to recognize their certification as bargaining agents and rejection by the trustees of a conciliation board award.

Interior TLC representative W. H. Fleck said last week that no other course appeared open to the union, after prolonged negotiations over wages and working conditions for eight school bus drivers had broken down.

**VICTORIA** — An extra 10,000 to 12,000 children poured into B.C. schools this year and there is no sign that this annual increase will drop off in the next few years, Education Minister Tilly Rolston said last week.

Only in a few isolated spots is it necessary to operate schools on shifts. In most cases this is because planned new schools are not finished.

**SUPPLY TIGHT**  
The teacher supply is tight, but no general shortage is being experienced.

The big annual increase in school population — about 10,000 a year since the 'war' — is the biggest factor in B.C.'s skyrocketing school bill.

This year, with an average of 35 pupils to a room, another 200 to 250 classrooms are needed and a similar number of teachers.

A one-room rural school costs \$7,000 to \$10,000, depending on location, water supply and other factors. Cost per room in larger schools is higher because they include rooms for specialized training, gymnasiums and auditoriums.

B.C.'s school population began to soar immediately after the war, due to movement of population to B.C. from elsewhere and the higher wartime birthrate. School authorities expected the annual increase to drop off gradually. It hasn't done so and shows no sign now of doing so for quite a few years.

**STAYING IN SCHOOL**

Mrs. Rolston points to another factor keeping the pressure on schools. More children are staying in school longer because they realize that modern business and industry require young people with a broader education.

This adds up, says Mrs. Rolston, to a heavy and costly investment in high schools in the next few years.

"And that," she says, "is why we have to get down to a sound and stable basis for educational taxation."

Her controversial Rolston plan for a new school taxation deal will be placed before the Legislature next month. Last spring it caused the defeat of the Soerod government.

A new committee may be appointed within the next few weeks to chart a revised course of study for B.C. school children, Mrs. Rolston said.

The present curriculum committee is made up of educationists only — and Mrs. Rolston doesn't think that is good enough.

**MORE IN TOUCH**  
She says B.C. children should know more about B.C.'s forestry industry, its mines, farms and fisheries.

To achieve this, Mrs. Rolston plans to displace some of the educational experts from the curriculum committee in favor of representatives from business and industry who, she says, are more in touch with B.C. developments, who realize better potentialities of the future and how B.C. youngsters can be trained to meet them.

### PACK BEANS FOR PICNIC

Getting toward the end of the picnic season, you want to make the last, outings the best yet. Bean 'n' pork and hot dogs will be welcome, you know. Heat the beans in a big skillet over the campfire while the crowd toasts franks on sticks. First brown chopped onion and green pepper in hot shortening in skillet. Use 1 large onion and green pepper. Then stir in 2 cans of beans. Heat, till bubbly, and flavor is blended. Pile onto paper plates, alongside toasted franks, pickles and crisp celery. Later pass a basket of doughnuts and apples.

## VERNON GIRL LYNN ADCOCK "MISS PNE"

VERNON — A Vernon girl, Lynn Adcock, was last week chosen "Miss PNE" in Vancouver from 15 contestants who came from all over British Columbia.

With the honor goes a cheque for \$1,000 and all the glamor and recognition of being selected as the contestant possessing the most desirable attributes of character, personality, and charm as well as good looks, from a panel of lovely girls which came from all over the province.

The contest locally was sponsored by the Vernon Board of Trade under the chairmanship of Walter Bennett. Miss Adcock was named "Miss Vernon" by audience vote at the Capitol Theatre out of six competitors.

Miss Adcock was born in "Isdale, Sask., on May 22, 1936. With her parents, Mr. and Mrs. Fred Adcock, brother, John, now 20, and younger sister Gayle, who is now 12, she came to Vernon five years ago. She graduated from Vernon Senior High School in 1952, and to her, too, went the honor of being valedictorian. Since then she has been employed at Radio Station CJIB as librarian and continuity writer. On Tuesday, she registered at Victoria Normal School, for her first ambition is to attain her teacher's certificate.

Her eventual aim is a career in radio and television.

Denmark's new constitution, approved this year, substitutes a single chamber for the old bicameral legislature.

**Vernon Still Conserving Water, Despite Rains**

VERNON — Despite the considerable rainfall of recent days, which has admittedly eased the city's domestic water situation, sprinkling restrictions imposed by the council two weeks ago will not be lifted for the balance of the season, waterworks chairman Alderman J. S. Monk told the council last week.

Both Pine Street and Mission Hill reservoirs were full. "Pine street is the main one, of course," reported City Engineer F. G. de Wolf, "and it has been full for the past four to five days." Dixon reservoir was closed on August 24 and pumping at BX springs was also discontinued.

Pumping at Kalamalka Lake is in progress 16 hours a day except for Monday and Tuesday, when pumping is suspended to conserve electric power.

Mr. de Wolf added that "we are just about in the same position at this date as regards storage as we were at the same time last year."

M/Sgt. RAYMOND D. WEST of Fort Madison, Iowa, wears the "Armadillo" suit as he hunts for mines buried along a road in the demilitarized zone in Korea. The suit weighs about 24 pounds and consists of a modified armored vest, and regulation army field trousers with laminated nylon plates attached. Two hundred of the suits have already been distributed.

## Adequate School Space This Year

Accommodation for the steadily increasing school population of Penticton will be adequate for this next year, at least, according to comments from W. W. Riddell, school board chairman.

"The schools, while not hard pressed for space to accommodate classes beginning this fall, could, if necessary, open up rooms that were closed because they were not up to the standard desired.

This will be the case in the high school, where a basement room is being utilized. The board, taking into consideration the steady growth of student numbers, does not expect it will be necessary to make any major additions to existing facilities until 1954.

At that time it appears likely a small elementary school will be constructed to serve residents on the West Bench development. This tentative plan is contingent upon the sustained growth of the area. In any event, it appears certain the west side of the city will receive an addition to existing facilities.

A new elementary school would relieve the pressure on the high school accommodation. In years to come only junior and senior high school students will occupy the building. This would be in keeping with the school board policy of centralizing the senior students, who require more extensive equipment such as household science rooms, chemistry laboratories and gymnasiums, and spreading out junior schools to facilitate travelling of younger boys and girls.

## High Temperature Of Okanagan Lake Draws Complaints

KELOWNA — Complaints have been received by the city engineer's department from packing houses regarding the high temperature of the water.

Local packinghouses normally operate on a 60-degree maximum, but Alderman Jack Treadgold said in some instances this year the reading was as high as 68 degrees. Variance of a few degrees can make a big difference in the efficient operation of cold storage machinery.

Last year a delegation from packinghouses appeared before council asking that an investigation be launched into the reason why the temperature of the water was higher than usual. An extensive study was made but no solution was found.

Alderman Treadgold informed council last week that although the city has no control over the lake temperature, it should help the fruit industry in any way possible.

A letter will be sent to the South Okanagan Health Unit asking for their opinion as to the best spot for the intake pipe, should the city see fit to remove it. The health unit has been carrying out tests for the past year.

Alderman Treadgold indicated the intake pipe may have to be removed or lengthened, and should this be necessary, provision for the expense should be made in the 1954 budget.

## Vernon Cadette Band Second In Parade At PNE

VERNON — It was a triumphant aggregation of 38 girls, under Bandmaster Harold Phillips, manager R.S.M. Robert W. Hodgson, and chaperons Mrs. Hodgson and Mrs. Clem Griffiths, who returned to Vernon last week from Vancouver.

Out of approximately 25 bands, the Vernon Girls' Cadette Band, Number 903, B.C. Dragoons, placed second in open competition the contest staged in connection with the five-mile-long parade which opened the Pacific National Exhibition in Vancouver.

Placing first was the 140-piece brass band, of Bellingham, Wash.

## Over \$500 In Cash Prizes At Armstrong Fair

Cash prize money totalling \$506.25, two tons of fertilizers, 11 cases of apple juice and four cases of canned goods are offered as prizes in the B.C.F.A. division at the B.C. Interior Provincial Exhibition opening in Armstrong next month.

Also open for competition are the J. R. J. Stirling memorial trophy, Buckerfield's "Better Fruit Class", and a new award, the Dr. R. C. Palmer memorial trophy.

The Stirling trophy will be awarded for the best collection of three plates of tree fruits, submitted by growers' children who have not reached their 19th birthdays; the Buckerfield's trophy, for tree fruits entered by growers; and the Doctor Palmer trophy, presented by employees of the Summerland experimental station in memory of their late superintendent, for most points in box or crate exhibits.

The exhibition runs through Tuesday, Wednesday and Thursday, September 15, 16 and 17.

Fighting giraffes swing their long necks like baseball bats in an effort to knock each other off balance. They can deliver pile-driver blows with their cloven hoofs.

## Theatre Group Had Successful Summer Season

Theatre By Starlight concluded their first summer season in Penticton Wednesday evening with the final performance of A. J. Cronin's classic drama, Jupiter Laughs. Immediately following the final curtain, Mrs. Hettie Kingsley, president of the Penticton Soroptimist club, presented the company with a large box of selected, assorted fruit and invited them to return next season.

"Penticton audiences have been wonderful," said Miss Monica Dudley. During the season, which began the first of July, eight popular stage productions were produced by the company of eight and it is understood a number of scripts have already been chosen for next season.

The summer theatre was well received in this city and enjoyed enthusiastic crowds at the Skaha Lake stage, even when inclement weather should have cut into box-office appeal.

"Theatre By Starlight is to Penticton summer what hockey is to winter," said one enthusiastic theatre goer.

Britain's St. Paul's Cathedral choir of 30 boys and 18 adults is making a goodwill tour of North America this fall.

## Liquor Store For Osoyoos

OSOYOOS — It is very probable that within the next month or so a liquor store will be opened in Osoyoos. The Liquor Control Board has agreed that a store here is warranted and is looking into the possibility of renting suitable quarters.

The establishment of a local vendor will culminate years of efforts on the part of the Board of Trade which has fought for such an establishment on the grounds that it was essential to properly and fairly serve the local people, residents to the east of here, and the many tourists who stop here.

New Brunswick's Restigouche River, with five branches, was named from an Indian word meaning "river in shape of hand."
